SUBJECT: Chabot College President Search
CC: Board of Trustees

I would like to extend my appreciation to the Advisory Search Committee and to each of the individuals who attended or viewed the forums and provided input on the finalists.

I appreciate your participation in such an important process as we work to identify the next President for Chabot College. Your participation is vital to a successful president search and to the success of our future President.

At this time, we have not selected one of the finalists for the Chabot College President. The CLPCCD Trustees and I remain hopeful that we will be able to finalize the process early next semester.
