C. Access and Use of District Property

2314 Student Parking Policy and Regulations

Parking on a campus is a privilege extended by the Board. A parking permit shall be required for all parking on campus during times classes are in session. Under the provisions of the California State Education Code, parking permits for students shall be issued upon payment of a prescribed fee approved by the Board. A parking permit does not guarantee a parking space but does authorize the holder access to the college parking lots.

Fees collected shall be deposited in the general fund and expended only for District parking services including security services and the construction and maintenance of parking lots.

To insure the safe and efficient use of available parking space, the College Presidents shall establish rules and regulations. Drivers of vehicles using college parking lots shall comply with the rules and regulations of the college. Drivers who do not comply may either be cited to Administrative Adjudication or their vehicles may be towed away and impounded at the owner's expense. Repeated and flagrant violations of the college rules and regulations may cause a driver to be subject to disciplinary action and may lead to the removal of the parking privilege.
