

## **Students and Student Services**

### **B. Admission and Attendance**

#### **5120 Residency and Attendance of Students**

It is the general policy of the Board of Trustees to provide educational opportunity for residents of the Chabot-Las Positas Community College District. With the exception of certain impacted health science and indentured apprentice programs, all Chabot-Las Positas Community College District course offerings are open to California residents who are otherwise eligible to attend. Out-of-state and international students are eligible for admission, but subject to payment of non-resident tuition. Selected eleventh and twelfth grade district high school students may attend on a part-time basis under the provisions of the concurrent enrollment plan as provided by the Education Code and Title 5.
