5260 Repeating Courses *

The College District recognizes that the most recent completion of a course should most accurately reflect a student's academic progress, thus students MAY REPEAT for credit those courses taken for which grades of D, F or NC were received. Except as provided in the catalog for specific courses or in cases of extenuating circumstances, a student, by state law, is limited to ONE ATTEMPT to repeat a course for the purpose of raising a substandard grade (D, F or NC). The procedures for repeating a course are included in the Administrative Rules and Procedures.
