D. Student Personnel Services

5312 Student Services Health Plan *

Pursuant to the provisions of Title 5 of the California Code of Regulations, a Student Services Health Plan is herewith adopted for the purpose of facilitating the physical, emotional and social well-being of students thereby increasing their potentials for success in college. This plan shall be developed and maintained by each college President. The plan will provide guidelines for use in the District to meet the "Diligent Care" requirements of the Education Code, which include the provision of first aid and emergency care, procedures for communicable disease control, health guidance, and environmental health and safety procedures. The plan shall relate to the District's resources, to its overall educational programs and services, and to the utilization of community resources. The health plans are included in the Administrative Rules and Procedures.
