

Instruction and Educational Program

A. Educational Program

6200 Program Revitalization / Discontinuance Process

Each college recognizes that our curriculum and course offerings must be responsive to the needs of the students and the community, and further that they must support the mission of the college and the goals of individual programs as these are identified in the official planning documents of the college (recent program review, unit plan, college educational master plan, strategic plan, etc.). As the needs of the students and community changes, the content and make-up of the educational programs must undergo regular review for appropriateness and effectiveness including both qualitative and quantitative measures.
