BP 4024 PROGRAM REVITALIZATION/DISCONTINUANCE

References:

Education Code Section 78016;
Title 5 Sections 51022 and 55130

Each college recognizes that our curriculum and course offerings must be responsive to the needs of the students and the community, and further that they must support the mission of the college and the goals of individual programs as these are identified in the official planning documents of the college (recent program review, discipline plan, college educational master plan, strategic plan, etc.).

As the needs of the students and community changes, the content and make-up of the educational programs must undergo regular review for appropriateness and effectiveness including both qualitative and quantitative measures (see appendices in AP 4020 titled Program and Curriculum Development). The Board of Trustees is required to review Career Technical Education programs every two years.
