Below is an Updated List of Technology Projects contained in the District Technology Plan over the past several years for our two colleges and district which includes planned and completed as of April 2018.

“APPENDIX A” – BANNER AND THIRD PARTY PROJECTS

SUMMARY OF PROJECTS FROM “DISTRICT ITS STRATEGIC PLAN” (April 2018)

The District Strategic Plan for ITS Projects was approved by the Chancellor’s Senior Leadership Team members who reviewed new college and district requirements for enhanced or improved system features. The District Strategic Plan for ITS Projects is developed in collaboration with the Chancellor’s Senior Leadership Team (SLT), the Chancellor’s Extended Senior Leadership Team (e-SLT), College Deans, Directors of Banner User Groups, College Technology Committees, and the district-wide Technology Coordinating Committee. The ITS Plan includes only major development projects, not routine operational tasks, system maintenance, and service requests for minor changes. Additions for new critical projects are made as the need arises and includes state and regulatory mandates as well as changes to accommodate contract negotiations. Besides consideration of the state and regulatory directives, the Chancellor’s SLT prioritization of Banner projects considers 3 factors: the impact to students, improved productivity, and reduction of costs.

All Technology Plans including the Bond are posted on the District Website www.clpccd.org under the “Technology Services” tab. A new 6-year Technology Plan is being developed in coordination with the new 6-year Facilities Master Plan that is scheduled to be completed by December 2018. The Technology Plan addresses both the Banner and other third party Enterprise Systems and the Bond projects for technology related to construction. The Banner and other Third Party projects are described in the “District ITS Strategic Plan” and the “Technology Plan Update – Bond Activities and Enterprise Systems 2014-2015”. The Bond projects are described for the new Measure A in the “Measure A Bond Projects March 2017”, and for the previous Measure B in “Bond Activities – IT Update for June 2013 to June 2015” and “Measure B Bond Activities – Accomplishments and Future Plans 2005-2017”.
