

October 10, 2014

Dan Troy, Vice Chancellor
College Finance and Facilities Planning
California Community Colleges Chancellor's Office
1102 Q Street, 4th Floor
Sacramento, CA 95811

In line with Title 5, Sections 55701, 55702, 58142, and 58120, and the *Student Attendance Accounting Manual: Addendum Concerning Academic Calendars, Course Scheduling, and Related Topics*, we are submitting herewith our application for approval of a compressed calendar for 2015-16.

The following attachments are included with our application:

- Proposed 2015-16 Academic Calendar
- Block Scheduling Pattern for 16-week Compressed Calendar
- FTES Calculations – Traditional vs. Compressed Calendar
- Memorandum of Understanding – Compressed Calendar
- SCEA Approval of the Memorandum of Understanding
- CSEA Letter Supporting Move to Compressed Calendar
- ASO Executives Letter of Support for the Compressed Calendar
- Calendar Committee Roster and Meeting Dates
- Compressed Calendar Forums Presentation
- Forum Response Cards
- Compressed Calendar Impact Survey – Spring 2014
- Fall 2015 Schedule of Classes Draft

If you have any questions or would like further information, please contact me. We will appreciate your earliest possible reply in view of the complex timelines involved in curriculum scheduling and publication.

Sincerely,

Kathy L. Tyner, M.S.
Vice President for Academic Affairs
900 Otay Lakes Road
Chula Vista, CA 91910-7299
Tel: 619.482.6337
Fax: 619.482.6449
kytyner@swccd.edu

c: Elias Regalado, Specialist, Fiscal Services, CCCCCO
Pamela D. Walker, Vice Chancellor of Academic Affairs, CCCCCO
Melinda Nish, Superintendent/President

Southwestern College

Application for Approval of 16-Week Calendar for 2015-16

Southwestern Community College District, located south of San Diego and extending to the U.S.—Mexico border, serves as the primary source of college education for approximately 400,000 residents of the South San Diego County area. Southwestern College began offering classes in 1961 with temporary quarters in Chula Vista High School. Groundbreaking for the present 156-acre campus was in 1963 and by September 1964 classes were being held at the new campus on the corner of Otay Lakes Road and East H Street in Chula Vista.

In 1988, Southwestern College established a Higher Education Center at San Ysidro and later expanded its off-campus locations by establishing the Higher Education Center at National City in 1998, and the Higher Education Center at Otay Mesa in 2007. In addition to its centers, Southwestern College provides off-campus classes at several extension sites throughout the district. Current enrollment at all locations exceeds 19,000 students. More than a half-million students have attended Southwestern College since its doors opened 45 years ago.

Studies and discussions about moving from the traditional 18-week calendar to a compressed calendar of 16 weeks per semester have taken place at Southwestern College for several years. College records, including minutes of Calendar Committee meetings as far back as 2004 reflect serious consideration of making the change effective for 2006-07. Faculty and student surveys were taken, and discussions of hurdles and benefits were held with faculty union representatives and other constituent groups. A "Transition Team" was organized to lead the analysis of issues related to the change to a compressed calendar. In December 2005 the governing board was informed of continuing research being conducted and a plan being developed to convert to a compressed calendar for 2007-08.

In April 2006, following extensive discussion and reports from representatives of other community colleges that had changed to a compressed calendar, a poll with responses from 273 Southwestern College faculty members revealed that 48% were in favor of moving to a 16-week calendar, 50% were against it, and 2% were ambivalent. Study and discussion continued, and a survey of the SWC faculty in March 2008 showed that 74% were "interested in exploring an alternative calendar" and 61% wanted a 16-week calendar. 28% of the respondents wanted to keep the traditional calendar and 10% said that they wanted the college to use both calendars simultaneously. It was determined that the earliest possible year for a calendar change would be 2009-10. Discussions among the faculty and administration continued each year through 2011-12 with arguments pro and con for a compressed calendar, but there was no definitive movement toward the change.

Serious consideration of changing to a compressed calendar started up again in late 2012. Discussions were held with representatives of neighboring San Diego Community College District that had been operating with a compressed calendar since 2002. In February 2013, the SWC Academic Senate passed a resolution supporting transition to a compressed calendar beginning in 2015-16. In February 2014, the Calendar Committee, sensing a pervasive change in campus climate toward significant

support of adopting a compressed calendar, began an intensive effort that has continued through this day, involving all stakeholder groups on the Chula Vista campus and at the Higher Education Centers.

During Spring 2014, the Calendar Committee met almost every week, reviewing and discussing the Title 5 regulations and Chancellor's Office documents regarding academic calendars and related attendance accounting regulations. Keeping in mind long-standing academic calendar traditions at Southwestern College, the Committee studied the compressed calendars adopted by several California community college districts and developed a sequence of SWC calendar drafts and potential block scheduling patterns for 2015-16. Decisions such as whether to maintain or discontinue a "College Hour" in class scheduling were debated at length. Over a period of several months, with Committee members having discussed details with their constituency between meetings, the 2015-16 academic calendar draft and block scheduling pattern submitted with this application were agreed upon for presentation to the college community.

In Spring 2014, open forums were held on the Chula Vista campus and at each of the SWC Higher Education Centers at which faculty, staff, students, and administrators were presented with the background and details of the compressed calendar and block scheduling drafts and given the opportunity to ask questions and discuss the documents, as well as submit questions and comments after the forums.

During the summer of 2014, the Instructional Support Services staff of the Office of Academic Affairs was tasked with rolling the Fall 2014 class schedule forward to Fall 2015 and converting the schedule of each section to fit within the compressed calendar and block scheduling pattern. The resulting preliminary version of the Fall 2015 schedule was disseminated to the instructional divisions and departments for review and fine-tuning, a process which is still ongoing.

Discussions between the SWC administration and the collective bargaining unit representing the faculty (SCEA – Southwestern College Education Association) concerning the effects of the change to a compressed calendar have taken place over the past several months. A Memorandum of Understanding between SCEA and the District covering key points related to the compressed calendar was signed on September 11, 2014. The faculty union members approved the MOU by a vote of 69%/31%.

Following discussions among Associated Students Organization leaders over a period of several months, the ASO Executives voted unanimously in support of the compressed calendar. In addition, the President of Classified School Employees Association Chapter 524 wrote Vice President Tyner stating that the CSEA Chapter expresses its support of moving to the compressed calendar. At its regular meeting on September 8, 2014, the Governing Board of Southwestern Community College District approved the adoption of the 16-week compressed academic calendar for 2015-16 provided that approval is granted by the Chancellor's Office.

In summary, Southwestern College believes that adoption of the 16-week compressed calendar being submitted is in the best interest of the students, faculty, and staff of the College and requests approval by the Chancellor's Office to proceed with implementation of the new calendar for 2015-16.

FTES Calculations

16-Week Compressed Calendar with Two Flex Days before Each Semester

Term Length Multiplier

The 16-week compressed calendar proposed for Southwestern College includes two flex days before the first week of each 16-week semester. It is anticipated that a Term Length Multiplier of 16.2 will be assigned by the Chancellor's Office upon approval of the proposed academic calendar.

Weekly Census Classes

As reflected on the block scheduling pattern submitted with this application, the number of weekly contact hours for each section has been increased to compress instruction from 18 weeks to 16 weeks, resulting in the total number of contact hours being as close as possible to the required total contact hours specified in the course outline of record. Contact hour calculations were made carefully following the *Student Attendance Accounting Manual: Addendum Concerning Academic Calendars, Course Scheduling, and Related Topics*.

Following is an example of the difference between FTES calculation for a weekly census class under the traditional 18-week calendar vs. the 16-week compressed calendar, for a 3-unit lecture class with 30 students actively enrolled at census, meeting two days per week:

Traditional Calendar:	30 students, two meetings of 1.5 contact hours each week $30 \times 2 \times 1.5 \times 17.5$ (TLM) = 1,575.00 total contact hours = 3.00 FTES
Compressed Calendar:	30 students, two meetings of 1.7 contact hours each week $30 \times 2 \times 1.7 \times 16.2$ (TLM) = 1,652.40 total contact hours = 3.15 FTES

Daily Census Classes

There is no change in the calculation of FTES for Daily Census classes. As with the traditional calendar, in developing the schedule for a Daily Census class, a combination of the number of class meetings and the contact hours per class meeting is chosen to match as closely as possible the total contact hours of instruction specified in the course outline of record.

Positive Attendance Classes

There is no change in the calculation of FTES for Positive Attendance classes. As with the traditional calendar, in developing the schedule for a Positive Attendance class, a combination of the number of class meetings and the contact hours per class meeting is chosen to match as closely as possible the total contact hours of instruction specified in the course outline of record.

Alternative Attendance Accounting Method Classes

The change in Term Length Multiplier from 17.5 to 16.2 reduces the FTES generated by Alternative Attendance Accounting Classes as illustrated in the following example of a 3-unit distance education class with 30 students actively enrolled at census:

Traditional Calendar:	30 students, 3 contact hours per week (corresponding to the 3 units) $30 \times 3 \times 17.5$ (TLM) = 1,575.00 total contact hours = 3.00 FTES
Compressed Calendar:	30 students, 3 contact hours per week (corresponding to the 3 units) $30 \times 3 \times 16.2$ (TLM) = 1,458.00 total contact hours = 2.78 FTES

MEMORANDUM OF UNDERSTANDING
Between the SOUTHWESTERN COMMUNITY COLLEGE DISTRICT and
SOUTHWESTERN COLLEGE EDUCATION ASSOCIATION

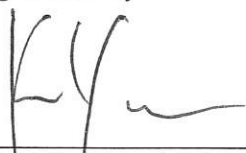

September 11, 2014

By this Memorandum of Understanding (“MOU”), the Southwestern College Education Association (“SCEA”) and the Southwestern Community College District (“District”) agree to the following with respect to the District’s implementation of a “compressed calendar,” starting in and/or after the 2015-16 academic year.

1. The compressed calendar will not be applied to Unit Members performing non-instructional assignments. For non-instructional Unit Members, who teach course(s) as part of their workload, their non-instructional duties will be reduced in proportion to their LHE assignment in accordance with current practices.
2. The general work year for instructional Unit Members is based on the compressed calendar consisting of 16 weeks of instruction for each Fall and Spring semester.
3. Instructional Unit Members’ workload elements are built upon an assumed 35-hour workweek in a 17.5 week semester. Instructional Unit Member’s LHE shall continue to be scheduled in accordance with current practice (e.g., 16-18 lecture hours per LHE) and will be consistent with state and federal laws.
4. In addition to paragraph 3 above, full-time instructional Unit Members will provide five (5) hours of office hours per week during each Fall and Spring semester. Specific to a 16-week compressed calendar, an office hour is defined as a fifty-five (55) minute period of time when a Unit Member is available for student consultation and present in his/her assigned office or in a posted instructional area, i.e., classroom or laboratory related to his/her teaching assignment. The District and SCEA affirm the importance of performing scheduled office hours to student success and as an essential part of the job duties for Unit Members. Full-Time Unit Members will list office hours in the published syllabus and it will be filed with the cognizant Dean during the first week of classes. The District and SCEA acknowledge that a complaint regarding the failure to perform scheduled office hours may lead to an inquiry regarding the complaint.
5. In addition to their regular assignments, full-time Unit Members will continue to have the same professional development obligations per year (previously known as “flex”). Full-time instructional Unit Members will be required to complete a total of 28 hours of professional development activities each year: four (4) hours per opening day activities in each semester, plus twenty (20) hours of professional development activities over both semesters. Part-time instructional Unit Members will not have a “flex” obligation under this MOU.

This MOU represents a collectively-bargained agreement between representatives from SCEA and the District, both of whom have the proper authority to enter into a binding agreement subject to ratification by the bargaining unit membership and the Governing Board. This MOU will be attached as an appendix to the parties' collective bargaining agreement.

Signed and agreed to by:

Kenneth Yanow
SCEA Bargaining Chairperson

Subject: MOU on Compressed Calendar Vote Results

BCC: All Faculty

Dear Faculty -

The MOU on compressed calendar was approved by the SCEA voting process. Thanks to the 111 people who took the time to vote. The MOU passed 69% to 31%.

Please realize that the schedule for compressed calendar is still being worked on. I encourage you to attend one of the below Q&A sessions being held by VPAA Tyner in Room 213 to get your questions answered.

Wednesday, October 1, 12:30 to 1:30pm

Thursday, October 2, 4:30 to 6pm

Friday, October 3, 9 to 10 am

I am also including an FAQ previously sent by VPAA Tyner for your convenience.

Thanks,
Caree Lesh
SCEA Secretary
www.swcscea.org

Frequently Asked Questions (FAQ):

1. When will the compressed calendar be implemented?

Answer:

The compressed calendar will be implemented in 2015-16, contingent upon negotiations and approval of SWC's compressed calendar application to the Chancellor's Office.

2. How will the semester look with a compressed calendar:

Answer:

Each full term class in the Fall and Spring semesters of our compressed calendar will be 16 weeks long, with 15 weeks of instruction and 1 week for final exams.

First and second session classes will be eight weeks long, with seven weeks of instruction and a final exam in the eighth week.

Currently each full term class in the Fall and Spring semesters is 18 weeks long, with 17 weeks of instruction and 1 week for final exams.

First and second session classes are eight weeks long with the final on the last day of the eighth week.

3. Why is there a block schedule?

Answer:

The block schedule was developed to allow for greater access to students by minimizing overlaps between classes. This was done by creating common pass times between blocks.

4. Why are the start and end times so 'odd' for classes in the block schedule?

Answer:

When compressing the schedule from 18 weeks to 16 weeks, the class times must be increased in order to assure the class meets for the required amount of hours for the units awarded. This factor as well as the incorporation of common pass times into the block schedule create 'odd' start and end times.

5. Is the pre-proto that was sent to the Deans and Chairs on Saturday, 9/20/14, the final schedule for Fall 2015?

Answer:

No, it is not. Deans and Chairs will have two opportunities to make changes to the Fall 2015 schedule:

- the pre-proto stage of schedule planning (no room changes)
- the proto stage of schedule planning (room changes will be considered)

6. Are there any SWC requirements that must be followed when scheduling for the compressed calendar?

Answer:

- All lecture sections must follow the established block scheduling, including college hour on Tuesday and Thursday.
- Regarding the schedule of laboratory classes:
 - o Lab classes are not required to follow the block scheduling pattern, but every effort should be made to do so, e.g. by conforming to the same start or end time as an existing block
 - o Lab classes may overlap with college hour, if necessary, but every effort should be made to avoid doing so.

7. When will the final Fall 2015 schedule be posted online?

Answer: April 2015

8. Whom should I contact if I have a concern about my schedule in the compressed calendar?

Answer: The Dean of your School or Center

9. Will there be a 'bump up' in FTES as a result of implementing the compressed calendar?

Answer:

If all other factors remain constant, e.g. enrollment, number of sections; it is expected that there will be a slight increase in FTES due to implementation of the compressed calendar. There are two opposing factors that will determine the size of the 'bump.' For each face-to-face class, the earned FTES will be slightly larger, but for each online/hybrid class, the FTES will decrease. The net size of the 'bump'

depends upon the combined effect of these two factors. The calculations are shown below assuming the same enrollment in each case:

- Current Calendar: FTES for a full term 3 unit face-to-face or online/hybrid lecture class with 30 students:

$$(3.0 \text{ hrs/week} \times 30 \text{ students} \times 17.5 \text{ weeks}) / (525 \text{ hrs/FTES}) = 3.0 \text{ FTES}$$

- Compressed schedule: FTES for a full term 3 unit face-to-face lecture class meeting twice a week with 30 students:

$$(3.4 \text{ hrs/week} \times 30 \text{ students} \times 16 \text{ weeks}) / (525 \text{ hrs/FTES}) = 3.1 \text{ FTES}$$

- Compressed schedule: FTES for a full term 3 unit online/hybrid lecture class with 30 students:

$$(3.0 \text{ hrs/week} \times 30 \text{ students} \times 16 \text{ weeks}) / (525 \text{ hrs/FTES}) = 2.7 \text{ FTES}$$

I will post these FAQs in the SharePoint site for the Calendar Committee and will add to them as additional questions are submitted.

Gathering Information

- **Student Surveys**

- 81.5% of Students prefer a 16 or 17-week semester with longer breaks in summer and winter
- Almost even split on having a finals week or not
- 72% show interest in fast-track classes
- 73% of student respondents are transfer

- **Staff Surveys**

- 87.7% of Faculty prefer a 16 or 17-week semester
- 81.4% of Classified Professionals & Administrators
- prefer a 16 or 17-week semester

Gathering Information

- Discussions happening for many years regarding the move
- Surveys from past efforts compared to recent surveys show an increase in support
- Academic Senate passed a resolution in Spring 2013 to support a compressed calendar
- Reviewing other colleges
- John Mullen, Senior Consultant, Enrollment Services

2015-2015 Model Compressed Calendar

- **Chancellor's Office Guidelines**
- **175-day Requirement**
- **Flex Days Outside the 16-week Semesters**

- **John Mullen, Senior Consultant, Enrollment Services**

Model Block Scheduling Pattern

- Purpose of Block Scheduling
- How Class Session Lengths are Determined
- Review of Proposed Block Schedule for 16-week Calendar

- John Mullen, Senior Consultant, Enrollment Services
- Susan Brenner, Presiding Chair, Council of Chairs

Questions and Feedback

- Please turn in cards if you haven't done so already.

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Please indicate one potential impact to you or your department/school/unit or organization (positive or negative), of the transition to a compressed calendar and how you are planning to
FTF	HEC OM Paramedic Program	This will require a major curriculum revision
CP	Nursing Department	Does not apply to Nursing - dependent upon clinical sites
CP	Nursing & Health Occupations	Our specific courses are mandated by our Accrediting Boards/Agencies, therefore, we must follow what they require, not necessarily what the
ADM	HEC OM Nursing ADN/VN/CNA/ST/ORN	Cannot see how Nursing Programs can fit required hours into compressed calendar (with ?) clinical hours and limitations on facility
CP	HEC OM Police Academy	The Commission on POST requires/mandates that the Police Academy certifies each recruit (student) under specific number of training hours in order for a recruit to be certified as a peace officer in the State of California. The Police Academy will need to stay on its regular calendar in order to meet the POST standards.
FTF	Art	Easier for students
ADM	HECNC/CCAC	CCAC Credit course (ES/A) consist of .5 lecture/2hour lab which totals 45 total instructional hours. With reduced # weeks, and no courses meeting 1x/week on Saturdays or Sunday it makes for a long class meeting. This is further exasperated during summer session.
CP	HEC/CCAC	Compressed calendar will work well for CCAC in FA & SP. Summer is problematic. If we can extend a week each (?) of the session dates we will be okay. Most classes are either Sat or Sun. Now will have to meet both Sat & Su. Water sports can't spend 5 hours on the water
CP	Dental Hygiene Program	It appears that hours of DH clinical will affect lab hours for student
CP	HECNC	Open Saturdays, Support for Student Services
PTF	Dental Hygiene	It will depend upon how the course is scheduled (by director) and what day of the week-, yes cautiously optimistic- it seems that the parameters have been evaluated (?)
PTF	Dental Hygiene	I have strong concerns that students will have enough time to do all the projects/papers/ activities with fewer week. I've been caught in the vice of Monday or Fridays holidays which took 18 weeks to 16 or less flex time
CP	HEC NC	Positive
PTF	Dental Hygiene	
FTF	Dental Hygiene	Our students will love this. It is long overdue. I personally will love this
CP	Dental Hygiene	
CP	Arts & Comm	Positive: staff will have more time to prep for fall and spring semesters Negative: college hour will be moved to later in the day, making it more difficult to schedule mtgs w/ all faculty
DC		Scheduling... I'm concerned how we will fit all of our classes without losing students if classes are moved to less desirable times
FTF	DSS	1. We will be orienting our students to this change. 2. We provide planners to our students and guide time management. 3. This change will permit us more time to contact and meet with students on
PTF	DSS	I work in the test proctoring department. Currently we have a space issue accommodating students for testing times. If a class has a longer session, our times will be greater too impacting our space issue further
PC		
ST	DSS	Have concerns that DSS would be able to operate at a faster pace in light of its clients disabilities
FTF	Arts & Comm	Having a calendar more aligned with other colleges is good for students attending multiple colleges or transferring. Don't like "off" hour or half hour times
FTF	HESAT	Slight impact in schedule of assignments
ST	Sun Newspaper	Less time to publish but more time in the office. More reason to publish
PTF	Architecture	Courses such as ARCh 150 meet 9 hours/wk, how would a course such as this work with the proposed block schedule?
CP	CSEA, Accreditation office	Does moving to a compressed calendar constitute a substantive change proposal with the ACCJC?

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Please indicate one potential impact to you or your department/school/unit or organization (positive or negative), of the transition to a compressed calendar and how you are planning to
FT		Loss of a morning college hour.
ADM	Library	More Saturday classes could potentially push/request of the library more open hours of services (this can apply to M-F as well) It is already hard enough to stretch staff for coverage during short periods of time (ie finals) this would add more stresses to coverage of service points.
FT	MSE	Change of lab experiements in physiology, anatomy-physiology and gen biology potentially. Example for bio 190 no chapter on erintology just absorb it as part of each organ system as they are covered
ADM	Student Services	Positive- more time to process students prior to semester start, more students paid/certified @ beginning of semester. Positive- able to accurately enforce DQs betwee FA and SP enables greater compliance
FT	MSE	Our department already uses the block schedule (at least a current form of it) This will impact our labs negativley. We will offer fewer sections using the proposed schedule per room=fewer sections of impacted classes such as anatomy. This schedule doesn't allow our technicias time to change any labs around (less flexibility of room use)
FT	MSE	Schedule-blocks may make scheduling 4.5 and 6 unit courses extremely difficult. This may result in limiting these course offerings
FT	MSE	I believe that the students who work and take evening classes will have a difficult time with the proposed block schedule since the first evening class is to begin at 3:55 p.m. From my experience, those students tend to work until 4pm. I do not know how to address this at the moment. I hope those students will be able to adjust,
FTF	Language & Literature (World Language & ESL) and IPRC Office (Program Review)	WL/ESL: Negative: Language acquisition cannot be "crammed" into shorter time so this will be challenging with curriculum and students' acquisition of key skills for success. For Program Review: Could be ok only if flex days are dedicated to Program Review and SLO assessment.

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	What actions do you need to take in the context of your employment to prepare for the implementation of the compressed calendar?
FTF	HEC OM Paramedic Program	-
CP	Nursing Department	keep an open mind
CP	Nursing & Health Occupations	Our programs must follow what our accreditation agencies require to meet standards.
ADM	HEC OM Nursing ADN/VN/CNA/ST/ORN	Increase # of clinical facilities to meet clinical hours!!
CP	HEC OM Police Academy	The Commission on POST requires/mandates that the Police Academy certifies each recruit (student) under specific number of training hours in order for a recruit to be certified as a peace officer in the State of California. The Police Academy will need to stay on its regular calendar in order to meet the POST standards.
FTF	Art	none
ADM	HECNC/CCAC	Have district approve an extended summer session for CCAC to continue to offer ES/A courses (sailing, kayaking, surfing, etc.) 10 week summer schedule for our weekend courses is doable. Work schedule not affected as we operate 7 days/ week during summer
CP	HEC/CCAC	Personally, I'm okay.
CP	Dental Hygiene Program	Hours of staff may be affected, more staff needed
CP	HECNC	scheduling of office support/ students S.
PTF	Dental Hygiene	As long as the contact hours remain consistent- I think that the instructor can/will accommodate the new program.
PTF	Dental Hygiene	Rearrange syllabus to make certain enough minutes for each topic to meet accreditation requirements
CP	HEC NC	
PTF	Dental Hygiene	None for me
FTF	Dental Hygiene	None. My classes are 1 hour 15 min
CP	Dental Hygiene	
CP	Arts & Comm	Prepare to have more conflicts w/ classrooms
DC		Scheduling
FTF	DSS	My husband is on a shorter calendar at Cuyamaca and has been for over 20 years. The main change is on scheduling.
PTF	DSS	
PC		Don't know, my question submitted was never answered
ST	DSS	
FTF	Arts & Comm	Very little. Change in syllabus
FTF	HESAT	none
ST	Sun Newspaper	
PTF	Architecture	
CP	CSEA, Accreditation office	Check w/ commission to see if a substantive change proposal is required

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	What actions do you need to take in the context of your employment to prepare for the implementation of the compressed calendar?
FT		Give my feedback before this is firmly in place.
ADM	Library	Ask for more staffing. The library has not had adequate staffing levels since its move into a bigger facility... this just compounds the situation
FT	MSE	Attend their planning mtgs, know who is on the committee
ADM	Student Services	Need to rework some processes and calendars, really beneficial for our departments
FT	MSE	So less sections = less FTES = Less \$, less flexibility of room use, less time in lab = less student contact. 3 h 10 min is not equal to 18 labs adding 20 minutes makes sense in lecture, but not lab. Add an hour, not 20 min. In an hour we could do something. Less quality of instruction, less student success. A comment was made how we already do this during the summer. True, but we offer 1 section of anatomy not 5. In science students take 1 science class. not 3 like they do during the regular
FT	MSE	redesign my course curriculum to fit into 15 lecture weeks not much of an impact. Finals not starting on a Monday, major impact to students
FT	MSE	I will need to revise my outlines to fit the compressed calendar. It should not be difficult but I am certain the transition will be a little challenging initially.
FTF	Language & Literature (World Language & ESL) and IPRC Office (Program Review)	Realign schedule/teaching; update trainings for PR

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Do you have any questions/feedback for the Calendar Committee?
FTF	HEC OM Paramedic Program	-
CP	Nursing Department	none at this time
CP	Nursing & Health Occupations	Good to know that specific programs are not locked in to the specific calendar changes, according to your presenter.
ADM	HEC OM Nursing ADN/VN/CNA/ST/ORN	How do these non-traditional programs (VocEd) fit into this model?
CP	HEC OM Police Academy	Thank you to John Mullen for clarifying that the programs at HECOM that are required to meet (POST) (Nursing) standards hours for certification will continue on their regular schedule to meet those standards.
FTF	Art	-
ADM	HECNC/CCAC	Identify that SAT/SUN class meetings do exist on calendar
CP	HEC/CCAC	Include Sundays and Saturdays in calendar even in summer.
CP	Dental Hygiene Program	none
CP	HECNC	n/a
PTF	Dental Hygiene	
PTF	Dental Hygiene	More concern when students miss class due to illness, ect and accreditation says students need to attend certain # hours i.e. missing 60 now becomes missing 65-70. Does it make sense to have buildings empty for more time?
CP	HEC NC	I think its great!
PTF	Dental Hygiene	
FTF	Dental Hygiene	N/A
CP	Dental Hygiene	No
CP	Arts & Comm	
DC		Options for scheduling a class that meets 2 hours a week for meeting twice
FTF	DSS	no
PTF	DSS	
PC		Yes, please sent out global email with all questions and your responses to keep us informed
ST	DSS	
FTF	Arts & Comm	Why more than 2 days of college hour? I love the fact that we will have more courses available in the afternoon. I can't wait for the new calendar to of into effect :)
FTF	HESAT	Just do it!
ST	Sun Newspaper	
PTF	Architecture	
CP	CSEA, Accreditation office	Does the proposed calendar align with other schools, local community colleges, Ucs, and CSUs?

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Do you have any questions/feedback for the Calendar Committee?
FT		Can you distribute pros and cons of the 3 options for a shortened calendar? Do you think that the faculty surveys reflect an educated viewpoint re the possible options? What happens to basic skills success rates in shorter semesters?
ADM	Library	
FT	MSE	Thank you for planning this, it has been a long time in coming, what would the schedule look like with college hour on only 2 days a week not everyday? Just Tuesday Thursday.
ADM	Student Services	Fall 2015 please
FT	MSE	Science classes are a minority on campus. When are you sgoing to address our issues? We are the most efficnet group on campus. Q= what about faculty who have kids? Teaching on Saturdays doesn't go along with any school or child care option. What am I supposed to do with my kids?
FT	MSE	In the future, please provide feedback as progress is made in the development of future calendars. Starting finals at the end of a week steals an entire weekend for students and faculty to prepare for final exams.
FT	MSE	<p>Yes, I do. 1. Please consider changing the starting time of the second block of the 4 hours/week, 2 days/week schedule. If that block begins half an hour later, from 11:40 to 1:45, then it is more practical for both students and faculty to have two four-unit classes scheduled for both blocks. The break between blocks would be 40 minutes, not just 10 minutes. From what I can tell, this proposed change does not interfere with the schedule of other blocks. It even coincides with the starting time of the 5 hours/week, 4 days/week block. 2. I recognize the rationale for trying to keep College Hour. However, I believe having it in the current form negatively affects the schedule of the evening classes since they are blocked in with a starting time of 3:55. I believe many students who sign-up for evening classes have other obligations, such as work, and they are not free until after 4pm. I rather see College Hour be on Friday. That way, the next block of classes can begin at 2:20. The corresponding ending times will be 3:10, 3:15, 3:30, 3:35, 3:55, 4:05, 4:25, 4:50, 5:30. This way, a large number of evening classes can begin sometime between 4:35 and 5:00. I believe this revision will be more accommodating to a segment of our student population. College Hour on Friday may not be popular but the positives here out weight the negatives for me.</p>

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Do you have any questions/feedback for the Calendar Committee?
FT	MSE	<p>I learned that a deliberate attempt was made to schedule spring break at around the halfway point of the semester. I want to propose to schedule spring break to occur during the week of March 31. This way, we do not have to lose an instructional day due to the Cesar Chavez Holiday. Such a schedule would mitigate the issue of having too many holidays for a particular block. That is, if March 31 happens to be on a Monday or Wednesday during a certain year, then there would be a disproportionate number of holidays occurring on Mondays/Wednesday versus Tuesday/Thursday. I do recognize that March 31 would normally arrive after 9 weeks of the spring semester. Such a schedule for spring break does not work out as neatly for short session classes. But I value an extra instructional day more than neatly dividing the semester into two equal halves since it affects more students. By the way, SDSU has been scheduling its spring break this way since the first year Cesar Chavez holiday was celebrated.</p>
FTF	Language & Literature (World Language & ESL) and IPRC Office (Program Review)	<p>We (WL) have developed a modified block schedule in which mornings are 4 days a week and PMs are block. Can we continue to use this model?</p>

Spring 2014 Compressed Calendar Forum
Response Cards

What is your role on campus?	What is your department/school/unit or organization on campus?	Did you find the Forum helpful? What can we do to improve?
FTF	HEC OM Paramedic Program	Great forum!
CP	Nursing Department	John Mullen presented very well
CP	Nursing & Health Occupations	Overall a helpful session.
ADM	HEC OM Nursing ADN/VN/CNA/ST/ORN	Yes. Well presented info. Good job calendar committee!!
CP	HEC OM Police Academy	Yes, very helpful.
FTF	Art	Yes. Have more-
ADM	HECNC/CCAC	Yes
CP	HEC/CCAC	Very
CP	Dental Hygiene Program	Yes, more time, program specific
CP	HECNC	yes
PTF	Dental Hygiene	Yes, Information poster
PTF	Dental Hygiene	
CP	HEC NC	Yes
PTF	Dental Hygiene	Yes thank you
FTF	Dental Hygiene	Yes, please implement this calendar
CP	Dental Hygiene	Yes
CP	Arts & Comm	Yes , mait it longer, more than 1 hour needed
DC		
FTF	DSS	Great job! Thank you for all your work!!!
PTF	DSS	Yes
PC		try not to soften the issue and jump right into the issue!
ST	DSS	Yes, its always good promotes enthusiasm to have a voice
FTF	Arts & Comm	Bring Snacks :)
FTF	HESAT	Yes
ST	Sun Newspaper	Yes, more samples/ draft schedules
PTF	Architecture	
CP	CSEA, Accreditation office	The information was thorough and thoughtful
FT		
ADM	Library	
FT	MSE	Yes, we'll wait and see as it goes
ADM	Student Services	yes
FT	MSE	No, you answered a few questions, but not enough. You don't really want input. The cards was a nice way to deal with questions, but you never answered mine (and I had several).
FT	MSE	
FT	MSE	Yes, I did find the forum helpful. We will need more time to address questions.
FT	MSE	
FTF	Language & Literature (World Language & ESL) and IPRC Office (Program Review)	Yes!

SWC Compressed Calendar Impact Survey - Spring 2014

Page 1 of 5

What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Classified Professional	Currently, we (HEC, NC) are offering classes in the 16 weeks format. The positive I see to this is that weeks prior to the semester commencing, it allows us to better prepare for faculty and students.	Administrative/Instructional Services at the HEC, NC
Faculty	<p>One potential negative impact is increasing the number of hours worked per week. For our majors classes we have 2, three hour lab sessions per lecture section and two sections per lecture. So 4 three hour labs per 1, 3 hr lecture - that is 12.6 units. We Have to teach an additional 3 hrs (lecture) to get a full load- or 18.6 hrs/week (compared to 15). If the labs go longer than 3 hours - this will increase accordingly.</p> <p>It is also important lecture and lab sections do not get broken up when adjuncts teach them because they will go over the max number of hours taught.</p>	Chemistry Dept.
Department Chair	Recalculating hours for classes will be a small price for joining all our college campuses with shorter semesters. Our students complain about the 18 week semesters at SWC. thanks for finally doing this!	Child Dev Dept
Classified Professional	Officer coverage on campus may increase/decrease depending on the transition to a compressed calander.	College Police Department

SWC Compressed Calendar Impact Survey - Spring 2014

What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Administrator	Having a compressed calendar would allow us to be able to offer intersession classes between the end of the fall semester and the start of the spring semester.	Continuing Education.
Administrator	<p>If adding minutes to the 15 week instructional schedule that will equate to a 17 week instructional schedule, the 4 hour dental hygiene clinic sessions may require starting prior to 8 AM. Currently spring semester has three days where clinic sessions begin at 8 AM and end at 9:20 PM. The only transition time occurs at the noon hour or between 5:00 and 5:30 PM. Students in each cohort will require a minimum of 30 minutes to transition from one clinic session to the next.</p> <p>Dental hygiene is in favor of the calendar, however it could impact the time the HEC NC building needs to open.</p>	Dental Hygiene / HEC NC
Department Chair	More efficient staffing, use of classroom space, and instruction time	Department of Behavioral Sciences
Part-Time Faculty	<p>Positive:</p> <p>1. Shorter semester will permit running of disqualified and probation students and we'll be able to contact to offer help.</p>	DSS
Faculty	<p>2. Students will have more time to work and save money for college.</p> <p>We're talking with students about this.</p>	DSS
Full-Time Faculty	<p>3. I hope we'll add a winter term for students to take a class. This will help with completion and financial aid if a student can take one less class during semester. This may benefit some students with disabilities (not all).</p>	DSS
Administrator	Though overall in favor of the compressed calendar, there is a negative impact to the externally accredited programs that are required to follow a specific schedule that may not align with the compressed calendar.	HECOM/HECSY

SWC Compressed Calendar Impact Survey - Spring 2014

What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Administrator	Better student retention and completion rates	HESA & Applied technology
Full-Time Faculty	<p>We are concerned about the impact a compressed schedule will have on enrollment in our courses. Especially if the rumor of mandatory Saturday classes is true. In the past 27 years we have never had any problems filling our African-American History courses. We have known from trial and error that few students will attend Saturday courses. Many will not take any Saturday classes because it interferes with their religious and cultural activities. We could loose enrollment if our History and Political Science courses are moved to late afternoon and night classes.</p>	<p>I am a member of the History/Political Science Department, which is attached to the Social Behavioral Science Department.</p>
What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Full-Time Faculty	<p>one Negative impact: the Prioritization timeline for program review needs will be shortened and will, in turn, cause the SCC Standing committees to have to work harder and faster to meet the deadlines. These committees are already stressed in meeting deadlines so there is a potential for stress present. To prevent complete halting of prioritization, there will be trainings for committee members and for Committee Chairs in order to share best practices and come up with a uniform, streamlined method of prioritizing needs. Putting program review online will help further as well.</p>	<p>Institutional Program Review</p>

SWC Compressed Calendar Impact Survey - Spring 2014

Page 4 of 5

What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Classified Professional	Should my work schedule be reduced from current months of service to a accommodate the compressed calendar, that would certainly be a negative.	Language and Literature
Administrator	If more evening classes are offered, more library open hours of service could be required/needed. This wouldn't be a bad thing if we had sufficient staff coverage. The current staffing level is not adequate in providing service for increase service hours for the long term.	Library
Administrator	<p>Schedule Production and adjusting to the block schedule. The Office of Instruction will develop a mock schedule in Summer 2014 in the test environment.</p> <p>Upon completion and review of the mock schedule we will then roll these newly created sections into the live environment.</p>	Office of Instruction
Faculty	Moving to a compressed calendar will help students who attend multiple colleges to better align their schedules.	School of Arts and Communication Communication Department

SWC Compressed Calendar Impact Survey - Spring 2014

What is your role on campus?	Please indicate one potential impact (positive or negative) of the transition to a compressed calendar and how you are planning to address this impact.	What is your department/school/unit or organization on campus?
Classified Professional	<p>Issue 1: I am concerned with day to day schedule of laboratory sessions. Being in a compressed calendar, if lab sessions are scheduled back to back having only a 10 minute break between sessions, would impact the set up/tear down of equipment and reagents throughout the day.</p> <p>Issue 2: How late in the evening would labs end? Due to lab safety, Lab Techs typically stay until the end of lab period.</p> <p>Issue 3: Shorter semesters implies intersessions. Are there plans to offer science labs between semesters?</p>	School of Math Science Engineering - Chemistry Department
Department Chair	<p>Working around the current college hour is tricky. In the current compressed 15 week calendar, our studio art courses such as drawing, painting, sculpture, photo, and graphic design meet for about 3 hours and 20 min twice a week. MW or TTH. I have heard from different people that it will be either 3 hours and 5 min to 3 hours and 20 min in this new calendar. Based on that, it would be difficult to use the block scheduling that was released for review by the department chairs.</p> <p>In the past, we have found that it is best to start our evening classes at 6pm instead of 6:30pm. Better enrollment and retention when starting at 6pm. Thus, we probably won't always be able to use the two afternoon slots shown in the block schedule. Also, there is one lecture classroom designated for our area, room 751. We the longer times created by the 16 week calendar, it looks like we loose two time slots. a MW time slot and a TTH time slot. Thus we need additional lecture room space in the mid morning in another room. It needs to be a room that is a smart classroom and can hold 45 students.</p>	School of Arts & Communication Visual Arts
