

# CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

August 21, 2012

Agenda Item: 4.3

Subject: Approval of Subcontract – California State University East Bay Foundation for Phase II of the Community Transfer Program for Future Mathematics and Science Teachers, Subcontract No. 30000128-119, Chabot College

Background: Since Fall 2010, Chabot College’s Science and Math Division has been working in collaboration with CSUEB to create an East Bay Teacher Pathways program. Our pilot cohort was completed at the end of the spring 2012 term and we are now moving into the evaluation phase of the program and will work to refine the program structure and curriculum.

This grant will provide the Science and Math Division with an opportunity to complete the development phase and begin implementation on a more direct math path for students interested in becoming future k-5 teachers or k-8 science and math teachers.

The grant will provide professional development opportunities for Chabot faculty (both adjunct and full-time) to be trained on the new curriculum and to do classroom observations. In addition, faculty inquiry groups will be formed to develop new lessons within the framework of the new curriculum. The funding provided by CSUEB’s grant for this professional development model is essential in implementing the new math curriculum.

Recommended Action: That the Board of Trustees approves the proposed subcontract, No. 30000128-119, with California State University East Bay Foundation, Chabot College in the amount of \$20,000 for the period beginning July 1, 2012 through December 31, 2013. It is further recommended that the Board authorize the Vice Chancellor, Business Services, to execute the subcontract on behalf of the District.
