Las Positas College:

The mission of the International Student Program is to facilitate the successful academic and cultural transition of international students to Las Positas College and to the American educational system. The IS program offers strong student support services at every level, beginning with preadmission advisement through graduation or transfer. For this presentation, Cindy Balero and Sean Day (IS program staff) will be providing the CLPCCD Board of Trustees with a current overview of the LPC International Student program. Emphasis will be on student enrollment trends (statistics), expanding admission of students via the ESL program, revenue generation, and ideas for future growth.
