Background: Rancho Santiago Community College District was awarded a “Sector Navigator – Information Communications Technology/Digital Media Sector” grant No.13-151-006 from the California Community Colleges Chancellor’s Office, Workforce and Economic Development Division, to improve the alignment of community college programs with employers and industry workforce needs in the sector.

The specific project to be funded by this sub-agreement is entitled Wireshark Multipurpose Labs. The project will create 24 complete Netlab scenarios between the two colleges. The set, as a whole, constitutes a complete TCP/IP analysis class. The funds allocated to the budget will provide non-instructional compensation to faculty contributing to the project. Contributing faculty identified include John Gonder, Las Positas College, and Wayne Phillips, Chabot College. The fiscal lead for the project will be Las Positas College.

The Rancho Santiago Community College District wishes to include the Chabot-Las Positas Community College District through a sub-agreement in the amount of \$26,180. The performance period of the sub-agreement shall be from December 9, 2014 through June 30, 2015. This occurred at the end of the semester, during finals preparation, and the winter break. The changeover of email systems further complicated communications.
