

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

November 16, 2021

Agenda Item: 6.3

Subject: Approval of Award of Contract with Sandis for the Campus Fire Water and Utility Mapping Project at Chabot College

Background: In order to better define the underground infrastructure of the Chabot College Campus and it improve the documentation provided to design firms and contractors at the outset of projects, the district maintains a mapping of known underground utility systems based upon as-built drawings, utility locating services and discovery excavations. For this service the district relies on a Civil Engineering firm to document, survey and map the utilities. These contracts provide for an update of the mapping documents following the completion of projects, discovery of other utility information and field investigation. Additionally, the contract will provide for design and engineering services related to the upgrade of the campus fire water system to increase system pressure and address deficiencies found during recent project investigations.

Sandis Utility Mapping Services	\$101,450.00
Sandis Campus Fire Water Upgrade	<u>\$ 71,600.00</u>
Total Contracts	\$173,050.00

Recommended Action: That the Board of Trustees approves the contract to award with Sandis for the Campus Fire Water and Utility Mapping Project at Chabot College. It is further recommended that the Board authorize the Vice Chancellor, Business Services, to execute the agreement on behalf of the District.
