The District invites qualified firms to submit proposals with respect to the Project described herein.

In general, the firm(s) selected as a result of this process ("Firm") will provide a proposal to the District to perform the Project and thereafter work cooperatively with the District Board, staff and consultants, the architect of record and design team, and the Project inspectors, to facilitate the timely completion of the Project.

The District wishes to retain a Firm that has the financial strength, management, and expertise to assist the District with delivering the Project within the proposed schedule. The District reserves the right to reject and request replacement of individual members of the firm.

#### **A. Description of Project**

The Project for which the District is seeking a response as described in Exhibit "A1", attached hereto.

#### **B. Preconstruction Services**

##### **1. Costs of Preconstruction Services:**

Prior to the award of the instrument, the Firm shall provide a fee estimate for preconstruction services expressed as a percentage of the estimated project cost in Exhibit A1. Parties will negotiate and agree upon applicable hourly rates and a not-to-exceed amount for preconstruction services based on the estimated project cost in Exhibit A1 and based on the Firm's proposed fee for preconstruction services.

##### **2. Description of Preconstruction Services:**

- Firm shall work with District staff and Architect to review and develop an analysis of the current construction budget and construction schedule.
- Firm shall assist District by providing detailed and on-going evaluations of the Project,

including the plans and specifications (the "Plans and Specifications"), detailed construction budget cost projections, project schedule and phasing requirements, analysis of the District's overall project budget, project constructability reviews of Architect's work, leadership and participation in User Group involvement efforts. Such evaluations shall include alternative approaches to design, development and construction of the Project.

- Firm shall attend regular meetings during Project design development, and document production phases between Architect, Project/Construction Manager and District, and any other applicable consultants of the District, as required.
- Firm shall assist with considering operating or maintenance costs with respect to selecting systems (mechanical, electrical, plumbing, lighting, etc.) for the Project. Firm will provide life cycle costing analyses as requested by District.
- Firm shall perform a detailed analysis of the Design Development plans along with preliminary construction and final Plans and Specifications. Firms shall provide the District with value engineering and recommendations regarding scope and budget of the Project; suggested value engineering items, long lead purchases and a plan for revising the Plans and Specifications to the extent necessary to achieve District's goals and objectives, including Project completion dates shall be provided.
- Firm shall assist the District in obtaining all local and State licenses, permits, requirements, and approvals including, but not limited to, approval from the Division of the State Architect ("DSA"), approval from the California Geological Survey (CGS) and compliance with requirements of the California Environmental Quality Act (CCEQA).
- Firm shall work with District's representative to prepare necessary agreements for completion of the Project.
- Firm shall provide construction cost estimates at the following design milestones; Design Development, 50% Construction Documents and 90% Construction Documents.
- Firm shall provide budget tracking during the course of design to determine the cost impact of the development of the design and scope changes.
- Firms shall provide BIM coordination and clash detection services during all phases of the design development, including 50% and 90% construction documents.
- During the Construction Document phase of the design, the contractor shall coordinate the work of the contractor's subcontractors.
- Firm shall negotiate with District a guaranteed maximum price (GMP) for the construction of the Project, using the Classification of Project Cost (Table A) Exhibit E, which shall become the basis for the Lease Agreements.

- Firm shall perform any other services ordered by the District to facilitate the timely and cost effective completion of the project.

### **C. Agreement Structure**

District will lease the applicable site to the Firm and require the Firm to construct improvements on the site.

The lease will include a financing component for the Project by extension of the term of the lease beyond the duration of the construction for a period mutually agreeable to the parties (likely 1 year).

The District will have the ability to occupy the site during the financing period, and a portion of the construction cost due to the contractor will be paid as lease payments during the financing period. The agreement will permit the District to pay the financed amounts early, and at any time after project completion.

### **D. Prequalification Requirement**

The District's Prequalification Application, see Exhibit 1 attached hereto. Proposals will not be accepted from any Respondent to this RFP who has not complied with these requirements.

### **E. Guaranteed Maximum Price ("GMP") Development**

The District is asking firms to provide price proposals for their fee (profit) for construction work, expressed as a percentage of the total costs of firm to complete the Work.

The District and the Firm will multiply the percentage fee proposal from the Firm's price proposal by the total costs, to calculate the Proposer's fee (profit). The Parties will then add the Proposer's fee (profit) to the total costs, which will result in the sum that shall be the GMP for the Project.

Prior to finalization of the GMP, the Firm will be required to provide the District with objectively verifiable information of all its costs to complete the work. The District will expect to have access to objectively verifiable information for all contractors costs, including but not necessarily limited to subcontractor bids, value engineering back-up, contingency breakdown and tracking documents, general conditions breakdown and tracking documents, and Contractor fees. The Firm will be required to submit spreadsheets showing full breakdown of costs, including information on subcontractors that were contacted and subcontractors who responded. Subcontractors may be selected on either best value or a lowest bidder basis.

### **F. Submittal Requirements**

All responses should include the following items in the order set forth below:

Cover Letter: Submit a dated Letter of Interest, including the legal name of the Contractor, address, telephone, emails, and the name, title, and signature of the person authorized to submit the RFP on behalf of the Contractor. The Letter of Interest should provide the following: a brief statement of the Contractor's experience indicating the unique background and qualities

of the Contractor, its personnel, and what will make the Contractor a good fit for work in the District.

2. Table of Contents: A table of contents of the material contained in the SOQ must follow the letter of interest.

What this means is that Firms are requested to propose a percentage fee – for example, 10% of the total final Project cost. In that example, if the total final Project cost is \$10,000,000, then the Firm's fee would be \$1,000,000. That fee includes overhead, profit, and all costs, including, but not limited to, insurance, bonds, labor, and general conditions. Note that this is a preliminary fee proposal, and will be updated and finalized as a GMP later.

**THIS LEASE-LEASEBACK FACILITIES LEASE AGREEMENT** (“Facilities Lease”) is entered into as of \_\_\_\_\_ between INSERT CONTRACTOR NAME, a California [corporation] and licensed general contractor (“Contractor”), as lessor, and the Chabot Las Positas Community College District, (the “Owner”), as lessee. Owner and Contractor are each a “Party” and together are the “Parties” to this Facilities Lease.

WHEREAS, Under California Education Code Section 81335 et seq., the Owner may enter into leases and agreements relating to real property and buildings used by the Owner.

WHEREAS, The Owner wishes to finance the construction of a new school (the “Project”) described in Article 1 and Exhibit A of the Lease-Leaseback Agreement entered into between the Owner and Contractor dated the date of this Facilities Lease (the “Lease-Leaseback Agreement”) and situated on the Site described or depicted in Exhibit A of the Site Lease dated the same date between the Owner and Contractor (the “Site Lease”). The site described or depicted in the Site Lease is referred to in this Facilities Lease as the “Site”.

WHEREAS, Under California Education Code Section 81335, the Owner is leasing the Site to Contractor under the Site Lease in consideration of Contractor subleasing the Site, including the Project, to the Owner under the terms of this Facilities Lease.

WHEREAS, The Owner and Contractor agree to mutually cooperate now or hereafter, to the extent possible, in order to sustain the intent of this Facilities Lease and the bargain of the Parties, and to provide payments according to this Facilities Lease on the dates and in the amounts shown in ***Exhibit A*** of this Facilities Lease.

The Owner and Contractor therefore agree as follows:

**1. Facilities Lease.** Contractor Facilities Leases to the Owner, and the Owner Facilities Leases from Contractor, the Site, including any real property improvements now or later placed on the Site. Following this sentence, reference in this Facilities Lease to the term “Contractor” means Contractor and Contractor's assigns for those rights, interests, and obligations that may be assigned by Contractor. The purpose of this Facilities Lease is (1) for the Owner to have necessary access to and use of the Site at such times and in such a manner as will not impede the construction of the Project; (2) for the Owner to obtain financing for the Project from the Contractor; and (3) during the term of the Facilities Lease, for the Owner to enjoy beneficial use and occupancy of the Site and the completed Project: (4) during the term of the Facilities Lease on Owners beneficial use and occupancy of the site and completed project the Contractor shall provide staff for additional

training, training scheduling, miscellaneous owner furnishing installation and building use instructions. During the term of the Facilities Lease, Owner and its agents, employees and invitees may enter into and upon the Site and the Project at all reasonable times necessary for the Owner to conduct its business. During construction of the Project, the Owner shall not unduly disturb, or unreasonably interfere with Contractor's work on the Project and related improvements to the Site. Following completion of the Project, the Owner shall enjoy full and undisturbed use of the Site during the remainder of the Lease Term.

**2. Term.** The term of this Facilities Lease ("Lease Term") shall begin as of the date above and shall be coterminous with the term of the Lease-Leaseback Agreement. Upon termination, the Parties' respective interests under this Facilities Lease will automatically end and be released, and title to the Site and Project will automatically and fully vest in the Owner.

**3. Representations and Warranties of the Owner.** The Owner represents and warrants to Contractor that:

(a) The Owner is a public school district, duly organized and existing under the Constitution and laws of the State of California with authority to enter into and perform all its obligations under this Facilities Lease.

(b) The Owner's governing body has duly authorized the execution and delivery of this Facilities Lease and further represents and warrants that all requirements have been met and procedures followed to ensure its enforceability.

(c) The execution, delivery, and performance of this Facilities Lease do not and will not result in any breach of or constitute a default under any indenture, mortgage, contract, agreement, or instrument to which the Owner is a party by which it or its property is bound.

(d) There is no pending or, to the knowledge of the Owner, threatened action, or proceeding before any court or administrative agency that will materially adversely affect the ability of the Owner to perform its obligations under this Facilities Lease.

(e) The Project and the Site are essential to the Owner in the performance of its governmental functions and their estimated useful life to the Owner exceeds the term of this Facilities Lease.

(f) The Owner shall take such action as may be necessary to include all Facilities Lease payments in its annual budget and annually to an appropriate amount necessary to make such Facilities Lease payments.

(g) The Owner shall not abandon the Site for the use for which it is currently required by the Owner and, to the extent permitted by law, the Owner shall not seek to substitute or acquire property to be used as a substitute for the use for which the Site is maintained under the Facilities Lease.

(h) Except as may be permitted under federal or state laws, the Owner shall not allow any hazardous materials or substances to be used or stored on, under, or about the Site.

**4. Representations and Warranties of Contractor.** Contractor represents and warrants to the Owner that:

(a) Contractor is duly organized, validly existing and in good standing as a [corporation] and licensed general contractor under the laws of the State of California, with full corporate power and authority to lease and own real and personal property;

(b) Contractor has full power, authority and legal right to enter into and perform its obligations under this Facilities Lease, and the execution, delivery and performance of this Facilities Lease have been duly authorized by all necessary corporate actions on the part of Contractor and do not require any further approvals or consents;

(c) The execution, delivery, and performance of this Facilities Lease do not and will not result in any breach of or constitute a default under any indenture, mortgage, contract, agreement, or instrument to which Contractor is a party by which it or its property is bound;

(d) There is no pending or, to the knowledge of Contractor, threatened action, or proceeding before any court or administrative agency that will materially adversely affect the ability of Contractor to perform its obligations under this Facilities Lease;

(e) Contractor will not mortgage or encumber the Site or the Facilities Lease or assign this Facilities Lease or its rights to receive Facilities Lease payments, except as permitted under this Facilities Lease.

**5. Construction/Acquisition.**

(a) The Owner has entered into the Lease-Leaseback Agreement and the Site Lease with Contractor in order to acquire and construct the Project, while enjoying use of the Site. The cost of the acquisition, construction and installation of the tenant improvements defined as the Project and the Owner's use of the Site under this Facilities Lease is determined by the Total Facilities Lease Amount as set forth in Article 4 of the Lease-Leaseback Agreement.

(b) In order to ensure that moneys sufficient to pay all costs will be available for this purpose when required, the Owner shall maintain on deposit in its general or other appropriate fund, and shall annually appropriate funds sufficient to make all Facilities Lease payments which become due to Contractor under this Facilities Lease.

**6. Facilities Lease Payments.**

(a) For services satisfactorily performed and after receipt of properly documented and submitted applications for payment, the Owner shall pay Contractor lease payments (the "Facilities Lease Payments" and each individually a "Facilities Lease Payment") pursuant to Article 9 of the General Conditions and the Total Facilities Lease Amount as defined in Article 4 of the Lease-Leaseback Agreement, up through the Date of Completion, as set forth in the Contract Documents, at the office of Contractor or to such other person or at such other place as

Contractor may from time to time designate in writing. Delays, and extra work shall be addressed through the terms of these General Conditions.

(b) The obligation of the Owner to pay Facilities Lease Payments shall constitute a current expense of the Owner and shall not in any way be construed to be a debt of the Owner in contravention of any applicable constitutional or statutory limitations or requirements concerning the creation of indebtedness by the Owner, nor shall anything contained in this Facilities Lease constitute a pledge of the general tax revenues, funds, or moneys of the Owner.

If the Date for Completion is extended by change orders that grant time extensions for delay pursuant to the Contract, then the Lease Term shall be similarly extended.

**7. Fair Rental Value.** Facilities Lease Payments shall be paid by the Owner in consideration of the right of possession of, and the continued quiet use and enjoyment of, the Project and the Site during this Facilities Lease. The Parties have agreed and determined that such total rental is not in excess of the fair rental value of the Project and the Site. In making such determination, consideration has been given to the fair market value of the Project and the Site, other obligations of the Parties under this Facilities Lease (including, but not limited to, costs of maintenance, taxes and insurance), the uses and purposes which may be served by the Project and the Site and the benefits from the Project and Site which will accrue to the Owner and the general public, the ability of the Owner to make additions, modifications and improvements to the Project and the Site which are not inconsistent with the Lease-Leaseback Agreement and which do not interfere with Contractor's work on the Project and Site.

**8. Facilities Lease Abatement.** Facilities Lease Payments due with respect to the Project shall be subject to abatement prior to the commencement of the use of the Project or during any period in which, by reason of material damage to or destruction of the Project or the Site, there is substantial interference with the use and right of possession by the Owner of the Project and the Site or any substantial portion the Site. For each potential incident of substantial interference, decisions to be made on: i) whether or not abatement shall apply; ii) the date upon which abatement shall commence; iii) the applicable portion of Facilities Lease Payments to be abated and; iv) the concluding date of the particular abatement, shall all be subject to determinations by the Owner in concert with its insurance provider. Contractor's right to dispute these decisions is not impaired. The amount of abatement shall be such that the Facilities Lease Payments paid by the Owner during the period of Project restoration do not exceed the fair rental value of the usable portions of the Site. In the event of any damage or destruction to the Project or the Site, this Facilities Lease shall continue in full force and effect.

**9. Use of Site and Project.** During the term of this Facilities Lease, Contractor shall provide the Owner with quiet use and enjoyment of the Site without suit, or hindrance from Contractor or its assigns. The Owner will not use, operate, or maintain the Site or Project improperly, carelessly, in violation of any applicable law or in a manner contrary to that contemplated by this Facilities Lease. The Owner shall provide all permits and licenses, if any, necessary for the operation of the Project. In addition, the Owner agrees to comply in all respects (including, without limitation, with respect to the time, maintenance and operation of the Project) with laws of all jurisdictions in

which its operations involving the Project may extend and any legislative, executive, administrative, or judicial body exercising any power or jurisdiction over the Site or the Project; provided, however, that the Owner may contest in good faith the validity or application of any such law or rule in any reasonable manner which does not, in the opinion of Contractor, adversely affect the estate of Contractor in and to the Site or the Project or its interest or rights under this Facilities Lease. Upon completion of the Project or severable portions thereof, as defined in the General Conditions, Contractor shall provide the Owner with quiet use and enjoyment of the Site without suit or hindrance from Contractor or its assigns, subject to reasonable interference from ongoing construction operations on any remaining portion of the Site under construction by Contractor.

**10. Contractor's Inspection/Access to the Site.** The Owner agrees that Contractor and any Contractor representative shall have the right at all reasonable times to enter upon the Site or any portion thereof to construct and improve the Project, to examine and inspect the Site and the Project and to exercise its remedies pursuant to section 21 of this Facilities Lease. The Owner further agrees that Contractor and any Contractor representative shall have such rights of access to the Site as may be reasonably necessary to cause the proper maintenance of the Site and the Project in the event of failure by the Owner to perform its obligations under this Facilities Lease.

**11. Project Acceptance.** The Owner shall acknowledge final inspection and completion of the Project. The Owner's Board shall accept the Work to the extent required by the Contract Documents, including Section 9.7 of the General Conditions. The validity of this Facilities Lease will not be affected by any delay in or failure of completion of the Project.

**12. Lease-Leaseback Agreement and Site Lease.** All of the terms of the Lease-Leaseback Agreement and Site Lease apply to this Facilities Lease as if they were contained in this Facilities Lease.

**13. Alterations and Attachments.** All permanent additions and improvements that are made to, and as part of, the Project shall belong to and become the property of Contractor until completion of the Project or termination of the Contract, subject to the provisions of sections 2, 21 and 22 of this Facilities Lease. Separately identifiable attachments added to the Project by the Owner shall remain the property of the Owner.

**14. Physical Damage; Public Liability Insurance.** The Contractor and the Owner shall maintain such damage and public liability insurance policies with respect to the Project and the Site as are required of them by the Lease-Leaseback Agreement.

**15. Taxes.** The Owner shall keep the Project and the Site free and clear of all levies, liens, and encumbrances and shall pay all license fees, registration fees, assessments, charges, and taxes (municipal, state, and federal) if applicable, which may now or later be imposed upon the ownership, leasing, renting, sale, possession, or use of the Project and the Site, excluding, however, all taxes on or measured by Contractor's income.

**16. Indemnity.** In addition to the indemnification set forth in Article 10 of the Lease- Leaseback Agreement, to the extent permitted by law, and with the exception of the Contractor's responsibilities as "Contractor" under the Lease-Leaseback Agreement, the Owner shall, with respect to the Project and the Site, indemnify Contractor against and hold Contractor harmless from any and all claims, actions, suits, proceedings, costs, expenses, damages, and liabilities, including attorneys' fees, arising out of, connected with or resulting from any acts of omission or

commission by the Owner's employees and agents or claims resulting from incidents or occurrences involving the financing of the Project and Lease-Leaseback aspects of the Project and third parties on the Site, including without limitation, the construction, possession, use or operation of the Project and further, the Owner agrees, to the extent the law allows, to indemnify Contractor against and hold Contractor harmless from and against any and all claims, actions, suits, proceedings, cost, expenses, damages, and liabilities, including attorney's fees, arising out of, connected with or resulting from the clean-up of any hazardous materials or toxic wastes from the Site or the Project; provided, however, that the Owner shall not be required to indemnify Contractor in the event that such liability or damages are caused by the negligence or intentional misconduct of Contractor.

**17. Events of Default.** The term "Event of Default," as used in this Facilities Lease means the occurrence of any one or more of the following events: (a) the Owner fails to make any unexcused Facilities Lease Payment (or any other payment) within 15 days after its due date; (b) the Owner or the Contractor fails to perform or observe any other covenant, condition or agreement to be performed or observed by it under this Facilities Lease and such failure to either make the payment or perform the covenant, condition or agreement is not cured within 10 days after written notice of it by the other Party; (c) the discovery by a Party that any statement, representation or warranty made by the other Party in this Facilities Lease, or in any document ever delivered by that other Party under or in connection with this Facilities Lease is misleading or erroneous in any material respect; or (d) a Party becomes insolvent, is unable to pay its debts as they become due, makes an assignment for the benefit of creditors, applies or consents to the appointment of a receiver, trustee, conservator or liquidator of the Party or of all or a substantial part of its assets, or a petition for relief is filed by the Party under federal bankruptcy, insolvency or similar laws.

**18. Remedies on Default.** Upon the happening of any Event of Default, the non-defaulting Party may exercise all remedies available under the Contract, including but not limited to Article 14 of the General Conditions. In a Contractor Event of Default, Owner may withhold Facilities Lease Payments. Despite any Facilities Lease provisions to the contrary, Contractor shall not under any circumstances have the right to accelerate the Facilities Lease Payments that fall due in future Facilities Lease periods or otherwise declare any Facilities Lease Payments not then in default to be immediately due and payable.

**19. Non-Waiver.** No covenant or condition to be performed by the Owner or Contractor under this Facilities Lease can be waived except by the written consent of the other Party. Forbearance or indulgence by the Owner or Contractor in any regards whatsoever shall not constitute a waiver of the covenant or condition in question. Until complete performance by the Owner or Contractor of a covenant or condition, the other Party shall be entitled to invoke any remedy available to it under this Facilities Lease or by law or in equity despite that forbearance or indulgence.

**20. Assignment.** Without the prior written consent of Contractor, the Owner shall not (a) assign, transfer, pledge, or hypothecate this Facilities Lease, the Project and the Site, or any part of them, or any interest in them, or (b) sublet or lend the use of the Project or any part of it, except as authorized by the provisions of the California Civic Center Act, Education Code Section 38130 *et seq.* Consent to any of the prohibited acts listed applies only in the given instance and is not a consent to any subsequent like act by the Owner or any other person. Contractor shall not assign its obligations under this Facilities Lease with the exception of its obligation to issue default notices and to convey or reconvey its interest in the Project and Site to the Owner upon full satisfaction of the Owner's obligations under this Facilities Lease; however, Contractor may assign

its right, title and interest in this Facilities Lease, the Facilities Lease Payments and other amounts due under this Facilities Lease and the Project in whole or in part to one or more assignees or sub-assignees at any time without the consent of the Owner. No assignment shall be effective as against the Owner unless the Owner is so notified in writing. The Owner shall pay all Facilities Lease Payments according to the direction of Contractor or the assignee named in the most recent assignment or notice of assignment. During the Facilities Lease term, the Owner shall keep a complete and accurate record of all such assignments. Subject always to the foregoing, this Facilities Lease inures to the benefit of, and is binding upon, the heirs, legatees, personal representatives, successors, and assigns of the Parties.

**21. Ownership.** The Project is and shall at all times be and remain the sole property of Contractor until completion of the Project or termination of the Contract, and the Owner shall have no right, title, or interest in or to it until completion of the Project or termination of the Contract, except as expressly set forth in this Facilities Lease (including, but not limited to, Section 2, above).

**22. Release of Liens.**

(a) Upon the Owner executing a Certificate of Acceptance and filing a Notice of Completion on the Project, as defined in the General Conditions, Contractor or its assignee and the Owner shall release Contractor's leasehold interest in the Project.

(b) Contractor shall authorize, execute, and deliver to the Owner all documents reasonably requested by the Owner to evidence (i) the release of any and all liens created under this Facilities Lease and the Site Lease, and (ii) any other documents required to terminate the Site Lease and this Facilities Lease.

**23. Severability.** If a court of competent jurisdiction shall hold any provision of this Facilities Lease invalid or unenforceable, such holding shall not invalidate or render unenforceable any other provision of this Facilities Lease, unless elimination of such provision materially alters the rights and obligations embodied in this Facilities Lease.

**24. Entire Agreement.** This Facilities Lease, the Site Lease, the Lease-Leaseback Agreement, and the Contract Documents that make up the "Contract" constitute the entire agreement between the Parties with respect to the Project, and it shall not be amended, altered, or changed except by a written agreement signed by both Parties.

**25. Notices.** Any notices or filings required to be given or made under this Facilities Lease shall be served, given, or made in writing upon the Owner or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below, or at such address as such Party may provide in writing from time to time.

**SCHEDULE OF FACILITIES LEASE PAYMENTS**

The term of this Facilities Lease shall commence as of the date shown on page 1 of this Facilities Lease. Facilities Lease payments shall be paid monthly in accordance with the Contract Documents and the total Facilities Lease Payments made shall not exceed the amount of the final Total Facilities Lease Amount as defined in Article 4 of the Lease-Leaseback Agreement.

Notwithstanding the foregoing, the term of this Facilities Lease may be extended and payment options may be modified by written agreement of the Parties hereto.

The initial schedule of Facilities Lease Payments shall be as follows, subject to the amount to be financed as discussed below.

Tenant Improvement Payments. Each month while Contractor is providing construction services, District shall pay Contractor a sum equal to ninety percent (90%) of the value of construction work performed on the last day of the prior month, less the aggregate of previous payments, and less Lease Payments (the “Tenant Improvement Payments”).

Five percent (5%) of the value of such work shall be held by the District as retention, and five percent (5%) shall be payable as Lease Payments (the “Financed Amount”) after the Work is Complete.

Tenant Improvement Payments shall not exceed estimates of the value of work completed which shall be prepared by Contractor on a form approved by District and certified by the Architect and District’s Project Inspector and any other approved representative of District, and filed before the fifth (5th) day of the month during which payment is to be made.

Work completed as estimated shall be an estimate only and no inaccuracy or error in said estimate shall release Contractor or any surety from responsibility for the satisfactory performance of such work or from enforcing each and every provision of the General Construction Provisions. District shall have the right subsequently to correct any error made in any estimate for payment.

Contractor shall not be entitled to have any payment estimates processed or be entitled to have any payment made for work performed so long as District, or any of the public agencies with jurisdiction, has not accepted or waived compliance with any lawful or proper direction concerning non-complying work or any portion thereof.

Payment for Contractor hours expended during the 12 month lease period, shall be in addition to the 5% withheld and shall be paid based upon actual hours worked toward the scheduling of training of staff, installation of owner furnished equipment. If the District exercises its right to early payment of the lease, the hourly charges shall be invoiced on a monthly basis for the actual work performed and time expended on site. In no event shall the cumulative total of the Tenant Improvement Payments, along with the balance of the Construction Contingency, Lease Payments and anticipated retention, ever exceed the Guaranteed Maximum Price.

The final 5% of the Total Facilities Lease Amount (the Financed Amount) shall be paid in equal monthly installments over twelve months. Each of these monthly payments shall be increased by ten percent (10%) as a financing charge. For clarity and avoidance of doubt, the twelve payments shall be 110% of one twelfth of the Financed Amount.

The Owner shall have the right to pay these payments early at any time after the Completion of the Project. If Owner pays the Financed Amount early, it shall not be required to pay the ten percent (10%) financing charge on any remaining amounts.

The Owner desires to provide for the financing and construction of certain public improvements (the “Project”) more fully described in the Facilities Lease Agreement between the Owner and Contractor executed concurrently herewith, and located at Project Name and Site Location and

The Owner’s governing body has determined that it is in the best interests of the Owner and for the common benefit of the residents it serves to construct and finance the Project by leasing the Site on which the public improvements are to be constructed to Contractor, and subleasing from Contractor the Site, including the Project, under a Facilities Lease Agreement effective the same date as this Site Lease (the “Facilities Lease”); and

The Owner is authorized under California Education Code Section 81335 to lease the Site, and its governing body has authorized the execution and delivery of this Site Lease; and

The purpose of this Site Lease is for Contractor to have necessary access to and use of the Site for the purpose of making, during the term of the Lease, the tenant improvements included in the Project, and as a condition of the Lease, Contractor agrees to make those tenant improvements; and

**2 Term.** The term of this Site Lease ("Lease Term") shall begin as of the date above and shall end when the Facilities Lease ends. At the end of the Facilities Lease, the Parties' respective interests under this Site Lease will automatically end and be released, and title to the Site and Project will automatically and fully vest in the Owner. Upon termination, Contractor shall immediately quit and surrender the Site to Owner in good order and condition, and shall remove all of Contractor's personal property and also any trash, debris, chemicals or hazardous materials.

**3 Representations and Warranties of the Owner.** The Owner represents and warrants to Contractor that:

(a) The Owner has good and merchantable free title to the Site and has authority to enter into and perform its obligations under this Site Lease;

(c) All taxes, assessments, or impositions of any kind with respect to the Site, if applicable, except current taxes, have been paid in full;

## ATTACHMENT “A” to Site Lease

### DESCRIPTION OR DEPICTION OF SITE

# 1 COLLEGE CENTER

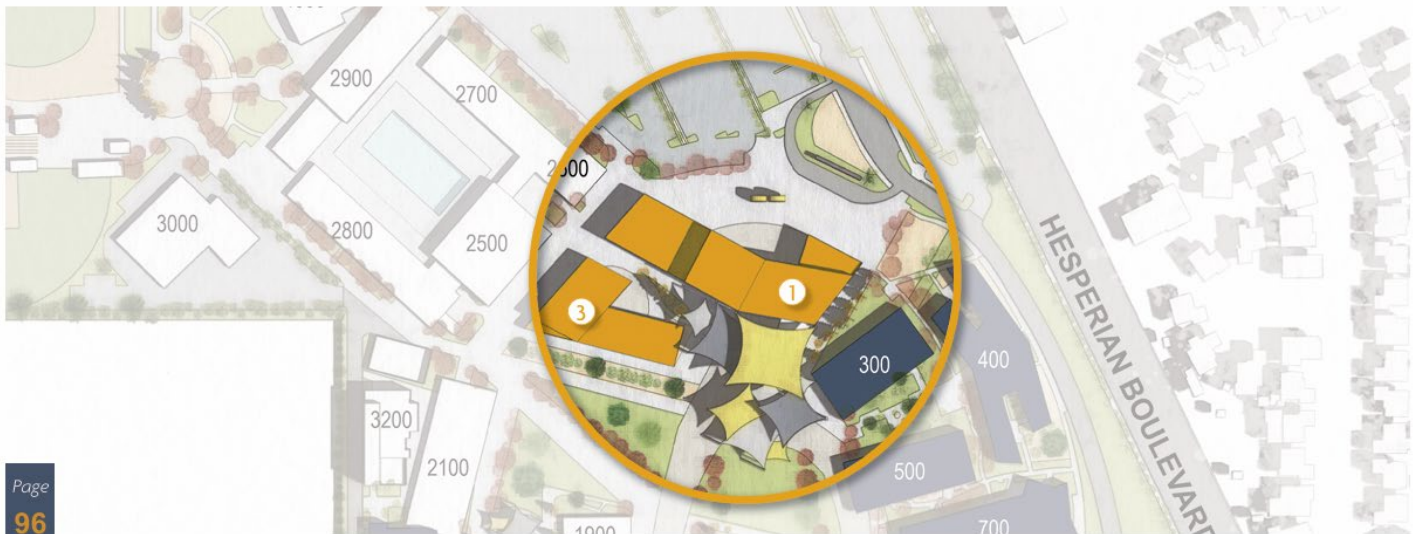

The College Center will establish a new campus front door and gateway, welcoming students and community members from the north side of campus into the heart of Chabot College. The facility will unify a range of essential campus services under one roof, including Student Life and Leadership, Campus Wellness, Food Services, DSPS, and Executive Leadership.

Designed as a hub of activity, the College Center should foster an indoor/outdoor collegiate atmosphere, seamlessly connecting its interior functions to a hierarchy of thoughtfully

programmed outdoor spaces. The building has the opportunity to serve as a vibrant, bright, and welcoming centerpiece—featuring multiple areas for students to gather, study, relax, and connect. With intentional design, it can become a daily destination that enhances both the student experience and campus identity.

The project will include a new campus drop-off and formal entry, located in the area currently occupied by Buildings 3800 and 200 and the south side of Parking Lot B. A thoughtful phasing strategy will be essential to maintain campus

operations throughout construction. Buildings 2300 and 100 should remain operational during the initial phases, supporting ongoing instruction and services. These buildings will be removed only after existing user groups have transitioned either into their original academic zones or into the new College Center, ensuring minimal disruption to campus activities.

LEAD-BASED MATERIALS CERTIFICATION

PROJECT/CONTRACT NO.: College Center at Chabot College / B25-26-06 between Chabot-Las Positas Community College District (“District”) and \_\_\_\_\_ (“Contractor”) (“Contract” or “Project”).

This certification provides notice to the Contractor that:

- (1) Contractor's work may disturb lead-containing building materials.
- (2) Contractor shall notify the District if any work may result in the disturbance of lead-containing building materials.
- (3) Contractor shall comply with the Renovation, Repair and Painting Rule, if lead-based paint is disturbed in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors.

1. **Lead as a Health Hazard**

Lead poisoning is recognized as a serious environmental health hazard facing children today. Even at low levels of exposure, much lower than previously believed, lead can impair the development of a child's central nervous system, causing learning disabilities, and leading to serious behavioral problems. Lead enters the environment as tiny lead particles and lead dust disburse when paint chips, chalks, peels, wears away over time, or is otherwise disturbed. Ingestion of lead dust is the most common pathway of childhood poisoning; lead dust gets on a child's hands and toys and then into a child's mouth through common hand-to-mouth activity. Exposures may result from construction or remodeling activities that disturb lead paint, from ordinary wear and tear of windows and doors, or from friction on other surfaces.

Ordinary construction and renovation or repainting activities carried out without lead-safe work practices can disturb lead-based paint and create significant hazards. Improper removal practices, such as dry scraping, sanding, or water blasting painted surfaces, are likely to generate high volumes of lead dust.

Because the Contractor and its employees will be providing services for the District, and because the Contractor's work may disturb lead-containing building materials, CONTRACTOR IS HEREBY NOTIFIED of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1978 are presumed to contain some lead-based paint until sampling proves otherwise.

## 2. **Overview of California Law**

Education Code section 32240 *et seq.* is known as the Lead-Safe Schools Protection Act. Under this act, the Department of Health Services is to conduct a sample survey of schools in the State of California for the purpose of developing risk factors to predict lead contamination in public schools. (Ed. Code, § 32241.)

Any school that undertakes any action to abate existing risk factors for lead is required to utilize trained and state-certified contractors, inspectors, and workers. (Ed. Code, § 32243, subd. (b).) Moreover, lead-based paint, lead plumbing, and solders, or other potential sources of lead contamination, shall not be utilized in the construction of any new school facility or the modernization or renovation of any existing school facility. (Ed. Code, § 32244.)

Both the Federal Occupational Safety and Health Administration ("Fed/OSHA") and the California Division of Occupational Safety and Health ("Cal/OSHA") have implemented safety orders applicable to all construction work where a contractor's employee may be occupationally exposed to lead.

The OSHA Regulations apply to all construction work where a contractor's employee may be occupationally exposed to lead. The OSHA Regulations contain specific and detailed requirements imposed on contractors subject to that regulation. The OSHA Regulations define construction work as work for construction, alteration, and/or repair, including painting and decorating. It includes, but is not limited to, the following:

- a. Demolition or salvage of structures where lead or materials containing lead are present;
- b. Removal or encapsulation of materials containing lead;
- c. New construction, alteration, repair, or renovation of structures, substrates, or portions thereof, that contain lead, or materials containing lead;
- d. Installation of products containing lead;
- e. Lead contamination/emergency cleanup;
- f. Transportation, disposal, storage, or containment of lead or materials containing lead on the site or location at which construction activities are performed; and
- g. Maintenance operations associated with the construction activities described in the subsection.

Because it is assumed by the District that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that the Contractor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (including title 8, California Code of Regulations, section 1532.1).

**Contractor shall notify the District if any Work may result in the disturbance of lead-containing building materials. Any and all Work that may result in the disturbance of lead-containing building materials shall be coordinated through the District. A signed copy of this Certification shall be on file prior to beginning Work on the Project, along with all current insurance certificates.**

**3. Renovation, Repair and Painting Rule, Section 402(c)(3) of the Toxic Substances Control Act**

The EPA requires lead safe work practices to reduce exposure to lead hazards created by renovation, repair and painting activities that disturb lead-based paint. Pursuant to the Renovation, Repair and Painting Rule (RRP), renovations in homes, childcare facilities, and schools built prior to 1978 must be conducted by certified renovations firms, using renovators with training by a EPA-accredited training provider, and fully and adequately complying with all applicable laws, rules and regulations governing lead-based materials, including those rules and regulations appearing within title 40 of the Code of Federal Regulations as part 745 (40 CFR 745).

The RRP requirements apply to all contractors who disturb lead-based paint in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors. If a DPH-certified inspector or risk assessor determines that a home constructed before 1978 is lead-free, the federal certification is not required for anyone working on that particular building.

**4. Contractor's Liability**

If the Contractor fails to comply with any applicable laws, rules, or regulations, and that failure results in a site or worker contamination, the Contractor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify, and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom.

If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses, and training shall conduct this Work.

It shall be the responsibility of the Contractor to properly dispose of any and all waste products, including, but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of the Contractor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

The Contractor shall provide the District with any sample results prior to beginning Work, during the Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of the Contractor.

THE CONTRACTOR HEREBY ACKNOWLEDGES, UNDER PENALTY OF PERJURY,  
THAT IT:

1. HAS RECEIVED NOTIFICATION OF POTENTIAL LEAD-BASED  
MATERIALS ON THE OWNER'S PROPERTY;
2. IS KNOWLEDGEABLE REGARDING AND WILL COMPLY WITH ALL  
APPLICABLE LAWS, RULES, AND REGULATIONS GOVERNING WORK  
WITH, AND DISPOSAL, OF LEAD.

THE UNDERSIGNED WARRANTS THAT HE/SHE HAS THE AUTHORITY TO SIGN ON  
BEHALF OF AND BIND THE CONTRACTOR. THE DISTRICT MAY REQUIRE PROOF  
OF SUCH AUTHORITY.

CONTRACT PERFORMANCE BOND  
(CALIFORNIA PUBLIC WORK)

WHEREAS, the governing board ("Board") of the Chabot-Las Positas Community College District, (or "District") and \_\_\_\_\_, ("Principal") have entered into a contract for the furnishing of all materials and labor, services and transportation, necessary, convenient, and proper to perform the following project:

**College Center at Chabot College / B25-26-06**

(the "Project"); and

WHEREAS, the Work to be performed by the Principal is more particularly set forth in that certain Agreement between the Principal and the District, dated \_\_\_\_\_, 20\_\_, which Agreement and all other contract documents set forth therein (collectively, the "Contract Documents") are incorporated herein and made a part hereof by this reference; and

WHEREAS, by the terms of the Contract Documents, the Principal is required to furnish a bond ensuring the Principal's prompt, full and faithful performance of the Work under the Contract Documents ("Bond").

NOW THEREFORE, we, \_\_\_\_\_, as Principal, and \_\_\_\_\_, as Surety, are held and firmly bound, along with our respective heirs, executors, administrators, successors and assigns, jointly and severally, unto [INSERT DISTRICT NAME], as District, for payment of the penal sum of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), said sum being not less than one hundred percent (100%) of the total amount payable by the District under the terms of the Contract Documents, in lawful money of the United States, as more particularly set forth herein.

The condition of the obligation is such that if the Principal promptly, fully and faithfully performs each and all of the obligations and things to be done and performed by the Principal in strict accordance with the terms of the Contract Documents as they may be modified or amended from time to time, and if the Principal indemnifies and saves harmless the District and all of its officers, agents and employees from any and all losses, liability and damages, claims, judgments, liens, costs, and fees of every description which may be incurred by the District by reason of the failure or default on the part of the Principal in the performance of any or all of the terms or the obligations of the Contract Documents, including all modifications and amendments thereto, and any warranties or guarantees required thereunder, then this obligation shall be void; otherwise, it shall be, and remain, in full force and effect.

The Surety, for value received, hereby stipulates and agrees that no change, adjustment of the Contract Time, adjustment of the Contract Price, alterations, deletions, additions, or any other modifications to the terms of the Contract Documents, the Work to be performed thereunder, or to the Specifications or the Drawings shall limit, restrict or otherwise impair Surety's obligations or District's rights hereunder. Surety hereby waives notice from the District of any such changes, adjustments of Contract Time, adjustments of Contract Price, alterations, deletions, additions or other modifications to the Contract Documents, the Work to be performed under the Contract Documents, or the Drawings or the Specifications.

In the event of the District's termination of the Contract due to the Principal's breach or default of the Contract Documents, within twenty (20) days after written notice from the District to the Surety of the Principal's breach or default of the Contract Documents and District's termination of the Contract, the Surety shall notify District in writing of Surety's assumption of obligations hereunder by its election to either remedy the default or breach of the Principal or to take charge of the Work of the Contract Documents and complete the Work at its own expense ("Notice of Election"); provided, however, that the procedure by which the Surety undertakes to discharge its obligations under this Bond shall be subject to the advance written approval of the

District, which approval shall not be unreasonably withheld, limited or restricted. The insolvency of the Principal or the Principal's mere denial of a failure of performance or default under the Contract Documents shall not by itself, without the Surety's prompt, diligent inquiry and investigation of such denial, be justification for Surety's failure to give the Notice of Election or for its failure to promptly remedy the failure of performance or default of the Principal or to complete the Work.

In the event the Surety fails to issue its Notice of Election to District within the time specified herein, the District may take all such action or actions necessary to cure or remedy the Principal's failure of performance or default or to complete the Work. The Principal and the Surety shall be each jointly and severally liable to the District for all damages and costs sustained by the District as a result of the Principal's failure of performance under the Contract Documents or default in its performance of obligations thereunder, including without limitation the costs of cure or completion exceeding the then remaining balance of the Contract Price; provided that the Surety's liability hereunder for the costs of performance, damages and other costs sustained by the District upon the Principal's failure of performance under or default under the Contract Documents shall be limited to the penal sum hereof, which shall be deemed to include the costs or value of any Changes of any Work which increases the Contract Price.

The Principal and Surety agree that if the District is required to engage the services of an attorney in connection with enforcement of the Bond, Principal and Surety shall pay District's reasonable attorneys' fees incurred, with or without suit, in addition to the above sum.

In the event that suit or other proceeding is brought upon this Bond by the District, the Surety shall pay to the District all costs, expenses and fees incurred by the District in connection therewith, including without limitation, attorneys' fees.

IN WITNESS WHEREOF, the Principal and Surety have executed this instrument this \_\_\_\_\_ day of \_\_\_\_\_, 2014 by their duly authorized agents or representatives.

**HAZARDOUS MATERIALS  
PROCEDURES & REQUIREMENTS**

**1. Summary**

This document includes information applicable to hazardous materials and hazard waste abatement.

**2. Notice of Hazardous Waste or Materials Conditions**

- a. Contractor shall give notice in writing to the District, the Construction Manager, and the Architect promptly, before any of the following conditions are disturbed, and in no event later than twenty-four (24) hours after first observance, of any:
  - (1) Material that Contractor believes may be material that is hazardous waste or hazardous material, as defined in section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law;
  - (2) Other material that may present a substantial danger to persons or property exposed thereto in connection with Work at the site.
- b. Contractor's written notice shall indicate whether the hazardous waste or material was shown or indicated in the Contract Documents to be within the scope of Work, and whether the materials were brought to the site by Contractor, its Subcontractors, suppliers, or anyone else for whom Contractor is responsible. As used in this section the term "hazardous materials" shall include, without limitation, asbestos, lead, Polychlorinated biphenyl (PCB), petroleum and related hydrocarbons, and radioactive material.
- c. In response to Contractor's written notice, the District shall investigate the identified conditions.
- d. If the District determines that conditions do not involve hazardous materials or that no change in terms of Contract is justified, the District shall so notify Contractor in writing, stating reasons. If the District and Contractor cannot agree on whether conditions justify an adjustment in Contract Price or Contract Time, or on the extent of any adjustment, Contractor shall proceed with the Work as directed by the District.
- e. If after receipt of notice from the District, Contractor does not agree to resume Work based on a reasonable belief it is unsafe, or does not agree to resume Work under special conditions, then District may order such portion of Work that is in connection with such hazardous condition or such affected area to be deleted from

the Work, or performed by others, or District may invoke its rights to terminate the Contract in whole or in part. District will determine entitlement to or the amount or extent of an adjustment, if any, in Contract Price or Contract Time as a result of deleting such portion of Work, or performing the Work by others.

- f. If Contractor stops Work in connection with any hazardous condition and in any area affected thereby, Contractor shall immediately redeploy its workers, equipment, and materials, as necessary, to other portions of the Work to minimize delay and disruption.

### **3. Additional Warranties and Representations**

- a. Contractor represents and warrants that it, its employees, and its subcontractors and their employees, shall at all times have the required levels of familiarity with the Site and the Work, training, and ability to comply fully with all applicable law and contract requirements for safe and expeditious performance of the Work, including whatever training is or may be required regarding the activities to be performed (including, but not limited to, all training required to address adequately the actual or potential dangers of Contract performance).
- b. Contractor represents and warrants that it, its employees, and its subcontractors and their employees, shall at all times have and maintain in good standing any and all certifications and licenses required by applicable federal, state, and other governmental and quasi-governmental requirements applicable to the Work.
- c. Contractor represents and warrants that it has studied carefully all requirements of the Specifications regarding procedures for demolition, hazardous waste abatement, or safety practices, specified in the Contract, and has either (a) verified to its satisfaction that the specified procedures are adequate and sufficient to achieve the results intended by the Contract Documents, or (b) by way of approved "or equal" request or request for clarification and written Addenda, secured changes to the specified procedures sufficient to achieve the results intended by the Contract Documents. Contractor accepts the risk that any specified procedure will result in a completed Project in full compliance with the Contract Documents.

### **4. Monitoring and Testing**

- a. District reserves the right, in its sole discretion, to conduct air monitoring, earth monitoring, Work monitoring, and any other tests (in addition to testing required under the agreement or applicable law), to monitor Contract requirements of safe and statutorily compliant work methods and (where applicable) safe re-entry level air standards under state and federal law upon completion of the job, and compliance of the work with periodic and final inspection by public and quasi-public entities having jurisdiction.

- b. Contractor acknowledges that District has the right to perform, or cause to be performed, various activities and tests including, but not limited to, pre-abatement, during abatement, and post-abatement air monitoring, that District shall have no obligation to perform said activities and tests, and that a portion of said activities and tests may take place prior to the completion of the Work by Contractor. In the event District elects to perform these activities and tests, Contractor shall afford District ample access to the Site and all areas of the Work as may be necessary for the performance of these activities and tests. Contractor will include the potential impact of these activities or tests by District in the Contract Price and the Scheduled Completion Date.
- c. Notwithstanding District's rights granted by this paragraph, Contractor may retain its own industrial hygiene consultant at Contractor's own expense and may collect samples and may perform tests including, but not limited to, pre-abatement, during abatement, and post-abatement personal air monitoring, and District reserves the right to request documentation of all such activities and tests performed by Contractor relating to the Work and Contractor shall immediately provide that documentation upon request.

## **5. Compliance with Laws**

- a. Contractor shall perform safe, expeditious, and orderly work in accordance with the best practices and the highest standards in the hazardous waste abatement, removal, and disposal industry, the applicable law, and the Contract Documents, including, but not limited to, all responsibilities relating to the preparation and return of waste shipment records, all requirements of the law, delivering of all requisite notices, and obtaining all necessary governmental and quasi-governmental approvals.
- b. Contractor represents that it is familiar with and shall comply with all laws applicable to the Work or completed Work including, but not limited to, all federal, state, and local laws, statutes, standards, rules, regulations, and ordinances applicable to the Work relating to:
  - (1) The protection of the public health, welfare and environment;
  - (2) Storage, handling, or use of asbestos, PCB, lead, petroleum based products or other hazardous materials;
  - (3) The generation, processing, treatment, storage, transport, disposal, destruction, or other management of asbestos, PCB, lead, petroleum, or hazardous waste materials or other waste materials of any kind; and
  - (4) The protection of environmentally sensitive areas such as wetlands and coastal areas.

## **6. Disposal**

- a. Contractor has the sole responsibility for determining current waste storage, handling, transportation, and disposal regulations for the job Site and for each waste disposal facility. Contractor must comply fully at its sole cost and expense with these regulations and any applicable law. District may, but is not obligated to, require submittals with this information for it to review consistent with the Contract Documents.
- b. Contractor shall develop and implement a system acceptable to District to track hazardous waste from the Site to disposal, including appropriate "Hazardous Waste Manifests" on the EPA form, so that District may track the volume of waste it put in each landfill and receive from each landfill a certificate of receipt.
- c. Contractor shall provide District with the name and address of each waste disposal facility prior to any disposal, and District shall have the express right to reject any proposed disposal facility. Contractor shall not use any disposal facility to which District has objected. Contractor shall document actual disposal or destruction of waste at a designated facility by completing a disposal certificate or certificate of destruction forwarding the original to the District.

## **7. Permits**

- a. Before performing any of the Work, and at such other times as may be required by applicable law, Contractor shall deliver all requisite notices and obtain the approval of all governmental and quasi-governmental authorities having jurisdiction over the Work. Contractor shall submit evidence satisfactory to District that it and any disposal facility
  - (1) have obtained all required permits, approvals, and the like in a timely manner both prior to commencement of the Work and thereafter as and when required by applicable law, and
  - (2) are in compliance with all such permits, approvals and the regulations.

For example, before commencing any work in connection with the Work involving asbestos-containing materials, or PCBs, or other hazardous materials subject to regulation, Contractor agrees to provide the required notice of intent to renovate or demolish to the appropriate state or federal agency having jurisdiction, by certified mail, return receipt requested, or by some other method of transmittal for which a return receipt is obtained, and to send a copy of that notice to District. Contractor shall not conduct any Work involving asbestos-containing materials or PCBs unless Contractor has first confirmed that the appropriate agency having jurisdiction is in receipt of the required notification. All permits, licenses, and bonds that are required by governmental or quasi-governmental authorities, and all fees, deposits, tap fees, offsite easements, and asbestos and PCB disposal facilities expenses necessary for the prosecution of the Work, shall be procured and paid for by Contractor. Contractor shall give all notices and comply with the all applicable laws bearing on the conduct of the Work as drawn and specified. If Contractor observes or reasonably should have observed that

Plans and Specifications and other Contract Documents are at variance therewith, it shall be responsible for promptly notifying District in writing of such fact. If Contractor performs any Work contrary to applicable laws, it shall bear all costs arising therefrom.

- b. In the case of any permits or notices held in District's name or of necessity to be made in District's name, District shall cooperate with Contractor in securing the permit or giving the notice, but the Contractor shall prepare for District review and execution upon approval, all necessary applications, notices, and other materials.

## **8. Indemnification**

To the extent permitted by law, the indemnities and limitations of liability expressed throughout the Contract Documents apply with equal force and effect to any claims or liabilities imposed or existing by virtue of the removal, abatement, and disposal of hazardous waste. This includes, but is not limited to, liabilities connected to the selection and use of a waste disposal facility, a waste transporter, personal injury, property damage, loss of use of property, damage to the environment or natural resources, or “disposal” and “release” of materials associated with the Work (as defined in 42 U.S.C. § 9601 et seq.).

## **9. Termination**

District shall have an absolute right to terminate for default immediately without notice and without an opportunity to cure should Contractor knowingly or recklessly commit a material breach of the terms of the Contract Documents, or any applicable law, on any matter involving the exposure of persons or property to hazardous waste. However, if the breach of contract exposing persons or property to hazardous waste is due solely to an ordinary, unintentional, and non-reckless failure to exercise reasonable care, then the procedures for termination for cause shall apply without modification.

**PROJECT LABOR AGREEMENT  
FOR THE CHABOT LAS POSITAS COMMUNITY COLLEGE DISTRICT *AND/OR*  
*PROJECT(S)***

**INTRODUCTION/FINDINGS**

This Agreement is entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between the CHABOT LAS POSITAS COLLEGE DISTRICT (hereinafter the “*DISTRICT*”), together with contractors and subcontractors of all tiers, who shall become signatory to this Agreement by signing the “Agreement to be Bound” (Addendum A) (referred to collectively herein as “Contractor(s)/Employer(s)”), and the Building and Construction Trades Council of Alameda County (hereinafter the “Council”) and its affiliated local Unions that have executed this Agreement (referred to collectively herein as “Union” or “Unions”).

The purpose of this Agreement is to promote the efficiency of construction operations for the *DISTRICT* through the use of skilled labor resulting in quality construction outcomes, and to provide for the peaceful settlement of labor disputes and grievances without strikes or lockouts, thereby promoting the public interest in assuring the timely and economical completion of the Project.

WHEREAS, the timely and successful completion of the Project is of the utmost importance to meet the needs of the *DISTRICT* and avoid increased costs resulting from delays in construction; and

WHEREAS, large numbers of workers of various skills will be required in the performance of the construction work and will be represented by the Unions signatory to this Agreement and employed by contractors and subcontractors who are also signatory to this Agreement; and

WHEREAS, the use of skilled labor on construction work increases the safety of construction projects as well as the quality of completed work; and

WHEREAS, the District and the Council and its affiliated local Unions wish to establish a more formal partnership. As a part of this agreement the Council agrees to promote and encourage Signatory Trade Unions to utilize Chabot Las Positas Community College District as the Local Education Agency (LEA) to utilize the services of a California Community College to provide educational services to union apprentice and pre-apprentice employees. Signatory affiliated local Trade Unions agree to annual meetings with representatives from Chabot Las Positas Community College District and the respective Colleges to discuss the Local Education Agency services provided by the District and if not currently utilizing the services of a California Community College District to allow CLPCCD to provide a proposal for services to the affiliated local Trade Unions for the LEA services to be considered against the current LEA provider.

WHEREAS, it is recognized that on projects of this magnitude with multiple contractors and bargaining units on the job site at the same time over an extended period of time, the potential for work disruption is substantial without an overriding commitment to maintain continuity of work; and

WHEREAS, the interests of the general public, the *DISTRICT*, the Unions, and the Contractors/Employers would be best served if the construction work proceeded in an orderly manner without disruption because of strikes, sympathy strikes, work stoppages, picketing, lockouts, slowdowns or other interferences with work; and

WHEREAS, the Contractors/Employers and the Unions desire to mutually establish and stabilize wages, hours and working conditions for the workers employed on the Project and to encourage close cooperation among the Contractors/Employers and the Unions so that a satisfactory, continuous and harmonious relationship will exist among the parties to this Agreement; and

WHEREAS, the parties agree that one of the primary purposes of this Agreement is to avoid the tensions that might arise on the Project if Union and non-union workers of different employers were to work side by side on the Project, potentially leading to labor disputes that could delay completion of the Project; and

WHEREAS, this Agreement is not intended to replace, interfere with, abrogate, diminish or modify existing local or national collective bargaining agreements in effect during the duration of the Project, insofar as a legally binding agreement exists between the Contractors/Employers and the affected Unions, except to the extent that the provisions of this Agreement are inconsistent with said collective bargaining agreements, in which event the provisions of this Agreement shall prevail; and

WHEREAS, the *DISTRICT* places high priority upon the development of comprehensive programs for the recruitment, training and employment of traditionally underrepresented and targeted workers and local area residents, and recognizes the ability of local pre-apprenticeship and apprenticeship programs to provide meaningful and sustainable career pathways to careers in the construction industry; and

WHEREAS, the contract(s) for construction work on the Project will be awarded in accordance with the applicable provisions of the California State Public Contract Code and all state, local and federal laws; and

WHEREAS, the *DISTRICT* has the right to select the lowest responsive and responsible bidder for the award of Construction Contract(s) on the Project; and

WHEREAS, the parties to this Agreement pledge their full good faith and trust to work toward the mutually satisfactory completion of the Project;

NOW, THEREFORE, IT IS AGREED BETWEEN AND AMONG THE PARTIES HERETO, AS FOLLOWS:

#### **ARTICLE IV**

##### **WORK STOPPAGES, STRIKES, SYMPATHY STRIKES AND LOCKOUTS**

4.1. The Unions, *DISTRICT*, and Contractor(s)/Employer(s) covered by this Agreement agree that for the duration of the Project:

4.1.1 There shall be no strikes, sympathy strikes, work stoppages, picketing, hand billing or otherwise advising the public that a labor dispute exists, or slowdowns of any kind, for any reason, by the Unions or employees employed on the Project, at the job site of the Project or at any other facility of the *DISTRICT* because of a dispute on the Project. Disputes arising between the Unions and Contractor(s)/ Employer(s) on other *DISTRICT* projects are not governed by the terms of the Agreement or this Article.

4.1.2 There shall be no lockout of any kind by a Contractor/Employer of workers employed on the Project.

4.1.3 If a Master Agreement expires before the Contractor/Employer completes the performance of work under a Construction Contract and the Union or Contractor/Employer gives notice of demands for a new or modified Master Agreement, the Union agrees that it will not strike on work covered by this Agreement and the Union and the Contractor/Employer agree that the expired Master Agreement will continue in full force and effect for work covered under this Agreement until a new or modified Master Agreement is reached. If the new or modified Master Agreement provides that any terms of the Master Agreement shall be retroactive, the Contractor/ Employer agrees to comply with any retroactive terms of the new or modified Master Agreement that are applicable to any employee(s) on the Project during the interim, with retroactive payment due within seven (7) calendar days of the effective date of the new or modified Master Agreement.

4.1.4 In the case of nonpayment of wages or trust fund contributions on the Project, the Union shall give the *DISTRICT* and the Contractor/Employer three (3) business days' notice when nonpayment of trust fund contributions has occurred, and one (1) business day's notice when nonpayment of wages has occurred or when paychecks being tendered to a financial institution normally recognized to honor such paychecks will not honor such paycheck as a result of insufficient funds, of the intent to withhold labor from the Contractor/Employer's or their subcontractor's workforce, during which time the Contractor/Employer may correct the default. In this instance, a Union's withholding of labor (but not picketing) from a Contractor/Employer that has failed to pay its fringe benefit contributions or failed to meet its weekly payroll shall not be considered a violation of this Article.

4.1.5 Notification: If the *DISTRICT* contends that any Union has violated this Article, it will so notify, in writing, the Senior Executive of the Council and the Senior Executive of the Union, setting forth the facts alleged to violate the Article, prior to instituting the expedited arbitration procedure set forth below. The Council will immediately use its best efforts to cause the cessation of any violation of this Article. The leadership of the Union will

immediately inform the workers of their obligations under this Article. A Union complying with this obligation shall not be held responsible for unauthorized acts of employees it represents.

4.2 Expedited Arbitration: Any party to this Agreement shall institute the following procedure, prior to initiating any other action at law or equity, when a breach of this Article is alleged to have occurred.

4.2.1 A party invoking this procedure shall notify Robert Hirsch, as the permanent arbitrator, or Barry Winograd, as the alternate arbitrator under this procedure. In the event the permanent arbitrator is unavailable at any time, the alternate will be contacted. If neither is available, then the parties shall select the arbitrator from the list in Section 13.4. Notice to the arbitrator shall be by the most expeditious means available, with notice by email and telephone to the *DISTRICT* and the party alleged to be in violation, and to the Council and involved local Union if a Union is alleged to be in violation.

4.2.2 Upon receipt of said notice, the County will contact the permanent arbitrator named above, or his alternate, who will attempt to convene a hearing within twenty-four (24) hours if it is contended that the violation still exists.

4.2.3 The arbitrator shall notify the parties by email and telephone of the place and time for the hearing. Said hearing shall be completed in one session, which, with appropriate recesses at the arbitrator's discretion, shall not exceed twenty-four (24) hours unless otherwise agreed upon by all parties. A failure of any party to attend said hearings shall not delay the hearing of evidence or the issuance of an award by the arbitrator.

4.2.4 The sole issue at the hearing shall be whether or not a violation of Section 4.1 of the Agreement has occurred. The arbitrator shall have no authority to consider any matter of justification, explanation or mitigation of such violation or to award damages, which issue is reserved for court proceedings, if any. The award shall be issued in writing within three (3) hours after the close of the hearing, and may be issued without a written opinion. If any party desires a written opinion, one shall be issued within fifteen (15) calendar days, but the parties shall not delay compliance with or enforcement of the award due to the issuance of a written opinion. The arbitrator may order cessation of the violation of this Article and other appropriate relief and such award shall be served on all parties by hand or registered mail upon issuance. Should a party found in violation of this Article fail to comply with an arbitrator's award to cease the violation, the party in violation shall pay to the affected party as liquidated damages the sum of ten thousand dollars (\$10,000.00) per shift for which it failed to comply, or portion thereof, until such violation is ceased. The arbitrator shall retain jurisdiction to resolve any disputes regarding the liquidated damages claimed under this section.

4.2.5 Such award may be enforced by any court of competent jurisdiction upon the filing of this Agreement and all other relevant documents referred to above in the following manner. The party filing such enforcement proceedings shall give written notice to the other party. In the proceeding to obtain a temporary order enforcing the arbitrator's award as issued under this Article, all parties waive the right to a hearing and agree that such proceedings may be *ex parte*. Such agreement does not waive any party's right to participate in a hearing for a final order of enforcement. The Court's order or orders enforcing the arbitrator's award shall be served on all parties by hand or delivered by certified mail.

4.2.6 Any rights created by statute or law governing arbitration proceedings inconsistent with the above procedure, or which interfere with compliance, are waived by the parties.

4.2.7 The fees and expenses of the arbitrator shall be divided equally between the party instituting the arbitration proceedings provided in this Article and the party alleged to be in breach of its obligation under this Article.

4.2.8 Should either the permanent or the alternate arbitrator identified above no longer work as a labor arbitrator, the *DISTRICT* and the Council shall mutually agree to a replacement.

## **ARTICLE V** **CONFERENCES**

### **ARTICLE XII COMPLIANCE**

12.1 It shall be the responsibility of the Contractors/Employers and Unions to investigate and monitor compliance with the provisions of the Agreement contained in Article IX. Nothing in this Agreement shall be construed to interfere with or supersede the usual and customary legal remedies available to the Unions and/or employee benefit Trust Funds to collect delinquent Trust Fund contributions from Contractors/Employers on the Project. The *DISTRICT* shall monitor and enforce compliance with the prevailing wage requirements of the state and the Contractors/Employers’ compliance with this Agreement, through the State Department of Industrial Relations, no part of this agreement shall obligate the District to implement a more formal labor compliance program.

Any questions regarding the meaning, interpretation, or application of the provisions of this Agreement shall be referred directly to the Joint Administrative Committee for resolution. The Joint Administrative Committee shall meet as required to solve grievances by majority vote with such resolutions to be final and binding on all signatories of the Agreement. A failure of any party to attend said hearing shall not delay the hearing of evidence or issuance of an award by the Joint Administrative Committee, if the award is made by a majority vote, and the hearing shall proceed ex parte. If the Committee is unable to resolve the grievance, the grievance may be referred in accordance with Step 3 of Article XIV.

**ARTICLE XIV**  
**GRIEVANCE ARBITRATION PROCEDURE**

13.4 Project Labor Disputes: All disputes involving the application or interpretation of a Master Agreement to which a Contractor/Employer and a Union are parties shall be resolved pursuant to the resolution procedures of the Master Agreement. All disputes relating to the interpretation or application of this Agreement, other than disputes under Article V (Work Stoppages, Strikes, Sympathy Strikes and Lockouts) and Article XV (Work Assignments and Jurisdictional Disputes), shall be subject to resolution by the grievance arbitration procedures set forth below.

13.5 Employee Discipline: All disputes involving the discipline and/or discharge of an employee working on the Project shall be resolved through the grievance and arbitration provisions contained in the Master Agreement for the craft of the affected employee. No employee working on the Project shall be disciplined or discharged without just cause.

13.6 No grievance shall be recognized unless the grieving party (Union or District Council on its own behalf, or on behalf of an employee whom it represents, or a Contractor/Employer on its own behalf) provides notice in writing to the party with whom it has a dispute within five (5) business days after becoming aware of the dispute but in no event more than twenty (20) business days after it reasonably should have become aware of the event giving rise to the dispute. Time limits may be extended by mutual agreement of the parties.

13.4 Grievances shall be settled according to the following procedures:

Step 1: Within five (5) business days after the receipt of the written notice of the grievance, the representative of the involved Union or District Council, or his/her designee, and the representative of the involved Contractor/Employer, shall confer and attempt to resolve the grievance.

Step 2: If the grievance is not resolved at Step 1, within five (5) business days of the Step 1 meeting, the alleged grievance may be referred in writing by either involved party to the Business Manager(s) of the affected Union(s) involved and the Labor Relations Manager of the Contractor/Employer, or the Contractor/Employer's designated representative, for discussion and resolution. Regardless of which party has initiated the grievance, the Union shall notify its International Union representative prior to the Step 2 meeting, and the International Union representative shall advise if it intends to participate in the Step 2 meeting. The Project Manager and the Council shall have the right to participate in any efforts to resolve the dispute at Step 2.

Step 3: If the grievance is not resolved at Step 2, within five (5) business days of the Step 2 meeting, either party may request the dispute be submitted to arbitration or the time may be extended by mutual consent of both parties. Within five (5) business days after referral of a dispute to Step 3, the representatives shall notify the permanent arbitrator designated in Article IV, or if not available, the alternate arbitrator designated in Article IV, for final and binding arbitration. If the permanent arbitrator or the alternate is not available, an arbitrator shall be selected by the alternate striking method from the list of three (3) below. The expense of the Arbitrator shall be borne equally by both parties. The Arbitrator shall arrange for a hearing on the earliest available date from the date of his/her selection. A decision shall be given to the parties within five (5) calendar days after completion

of the hearing unless such time is extended by mutual agreement. A written opinion may be requested by a party from the presiding Arbitrator.

13.6 The time limits specified at any step of the Grievance Procedure may be extended by mutual agreement of the parties. However, failure to process a grievance, or failure to respond in writing within the time limits provided above, without an agreed upon extension of time, shall be deemed a waiver of such grievance without prejudice, or without precedent to the processing and/or resolution of like or similar grievances or disputes.

13.7 In order to encourage the resolution of disputes and grievances at Steps 1 and 2 of this Grievance Procedure, the parties agree that such settlements shall not be precedent setting.

13.8 Retention: At the time a grievance is submitted under this Agreement or any Master Agreement, the Union may request that the *DISTRICT* withhold and retain an amount from what is due and owing to the Contractor against whom the grievance is filed, sufficient to cover the damages alleged in the grievance, should the Union(s) prevail. The amount shall be retained by the *DISTRICT* until such time as the underlying grievance giving rise to the retention is withdrawn, settled, or otherwise resolved, and the retained amount shall be paid to whomever the parties to the grievance shall decide, or to whomever an Arbitrator shall so order.

13.9 Should any of the arbitrators listed in this Article or Article IV no longer work as a labor arbitrator, the *DISTRICT* and the Council shall mutually agree to a replacement.

## **ARTICLE XV** **WORK ASSIGNMENTS AND JURISDICTIONAL DISPUTES**

14.1 The assignment of Covered Work will be solely the responsibility of the Employer performing the work involved; and such work assignments will be in accordance with the Plan for the Settlement of the Jurisdictional Disputes in the Construction Industry (the "Plan") or any successor Plan.

14.2 All jurisdictional disputes on this Project between or among the building and construction trades Unions and the Employers parties to this Agreement, shall be settled and adjusted according to the present Plan established by the Building and Construction Trades Department or any other plan or method of procedure that may be adopted in the future by the Building and Construction Trades Department. Decisions rendered shall be final, binding and conclusive on the Employers and Unions parties to this Agreement.

All other procedures shall be as specified in the Plan.

14.4 All jurisdictional disputes shall be resolved without the occurrence of any strike, work stoppage, or slow-down of any nature, and the Employer's assignment shall be adhered to until the dispute is resolved. Individual employees violating this section shall be subject to

immediate discharge. Each Employer will conduct a pre-job conference with the Council prior to commencing work. The *DISTRICT* and the Project Manager will be advised in advance of all such conferences and may participate if they wish. Pre-job conferences for different Employers may be held together.

17.1 The parties agree that in the event any article, provision, clause, sentence or word of the Agreement is determined to be illegal or void as being in contravention of any applicable law, by a court of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect. The parties further agree that if any article, provision, clause, sentence or word of the Agreement is determined to be illegal or void, by a court of competent jurisdiction, the parties shall substitute, by mutual agreement, in its place and stead, an article, provision, clause, sentence or word which will meet the objections to its validity and which will be in accordance with the intent and purpose of the article, provision, clause, sentence or word in question.

17.2 The parties agree that in the event a decision of a court of competent jurisdiction materially alters the terms of the Agreement such that the intent of the parties is defeated, then the entire Agreement shall be null and void.

17.3 If a court of competent jurisdiction determines that all or part of the Agreement is invalid and/or enjoins the *DISTRICT* from complying with all or part of its provisions and the *DISTRICT* accordingly determines that the Agreement will not be required as part of an award to a Contractor/Employer, the Unions will no longer be bound by the provisions of Article IV.

#### **ARTICLE XIX** **TERM**

18.1 This Agreement shall be included in the bid documents, requests for proposals, or other equivalent Project solicitations, which shall indicate that entering into this Agreement is a condition of the award of a Construction Contract(s) for the Project.

18.2 This Agreement shall become effective on the day it is executed by the *DISTRICT* and the Council (the “Effective Date”), and shall apply to each Project listed in Addendum C until Completion.
